# Complement Factor H Isoform A Precursor (CFH) ELISA Kit for Human

## PRODUCT OVERVIEW

| | |
|---|---|
| **Product Name** | Complement Factor H Isoform A Precursor (CFH), ELISA Kit |
| **Full Product Name** | Human Complement Factor H Isoform A Precursor (CFH) ELISA Kit |
| **Product Gene Name** | CFH elisa kit |
| **Species Reactivity** | Human |
| **Assay Type** | Sandwich |
| **Samples** | Human serum, plasma and tissue homogenate samples. |
| **Detection Range** | 31.2ug/ml-1000ug/ml |
| **Sensitivity** | 5.0?g/ml |
| **Preparation and Storage** | Store all reagents at 2-8 degree C |
| **Related Product Information for CFH elisa kit** | MBS109767 is a ready-to-use microwell, strip plate ELISA (enzyme-linked immunosorbent assay) Kit for analyzing the presence of the Complement Factor H Isoform A Precursor (CFH) ELISA Kit target analytes in biological samples. The concentration gradients of the kit standards or positive controls render a theoretical kit detection range in biological research samples containing CFH. The ELISA analytical biochemical technique of the MBS109767 kit is based on CFH antibody-CFH antigen interactions (immunosorbency) and an HRP colorimetric detection system to detect CFH antigen targets in samples. The ELISA Kit is designed to detect native, not recombinant, CFH. Appropriate sample types may include undiluted body fluids and/or tissue homogenates, secretions. Quality control assays assessing reproducibility identified the intra-assay CV (%) and inter-assay CV(%). |
| **Other Notes** | Small volumes of CFH elisa kit vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply. |

## ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for CFH. It may not necessarily be applicable to this product.

| | |
|---|---|
| **Protein Family** | Complement factor |
| **Precautions** | All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines. |
| **Disclaimer** | While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice.<br><br>It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information. |
| **Product Note** | Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details. |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures.
