Myb Protein (MYB) Drosophila Melanogaster Recombinant Protein

PRODUCT OVERVIEW

Product Name	Myb protein (Myb), Recombinant Protein
Full Product Name	Recombinant Drosophila melanogaster Myb protein (Myb), partial
Product Gene Name	Myb recombinant protein
Host	E Coli or Yeast or Baculovirus or Mammalian Cell
Form/Format	Lyophilized or liquid (Format to be determined during the manufacturing process)
Purity/Purification	Greater or equal to 85% purity as determined by SDS-PAGE. (lot specific)
Preparation and Storage	Store at -20 degrees C. For long-term storage, store at -20 degrees C or -80 degrees C. Store working aliquots at 4 degrees C for up to one week. Repeated freezing and thawing is not recommended.
Molecular Weight	74,045 Da
Tag Information	This protein contains an N-terminal tag and may also contain a C-terminal tag. Tag types are determined by various factors including tag-protein stability, please inquire for tag information.
Sterility	Sterile filter available upon request.
Endotoxin	Low endotoxin available upon request.
3D Structure	ModBase 3D Structure for P04197
Species	Drosophila melanogaster (Fruit fly)
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Related Product Information for Myb recombinant protein	MBS1259527 is a recombinant protein targeting Myb. Also known as Recombinant Drosophila melanogaster Myb protein (Myb), partial. Host: E Coli or Yeast or Baculovirus or Mammalian Cell.
Other Notes	Small volumes of Myb recombinant protein vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for Myb. It may not necessarily be applicable to this product.

NCBI GI #	17530961
NCBI GeneID	32543
NCBI Accession #	NP_511170.1
UniProt Primary Accession #	P04197
UniProt Secondary Accession #	Q9VXM9
UniProt Related Accession #	P04197
GenBank Nucleotide #	NM_078615.4
NCBI Official Full Name	Myb oncogene-like, isoform A
NCBI Official Synonym Full Names	Myb oncogene-like
NCBI Official Symbol	Myb

NCBI Official Synonym Symbols	c-myb; c-Myb; CG9045; D-myb; Dm myb; Dm Myb; Dm-myb; Dm-Myb; DmelCG9045; dmMYB; DmMyb; DmMYB; dmyb; dMyb; Dmyb; DMyb; l(1)XVI; myb; MYB; p85
UniProt Protein Name	Myb protein
Protein Family	Myb protein
UniProt Gene Name	Myb
NCBI Protein Information	CG9045 gene product from transcript CG9045-RD
UniProt Comments for Myb	DNA-binding protein that specifically recognizes the sequence 5'-YAAC[GT]G-3'. Component of the DREAM complex, a multiprotein complex that can both act as a transcription activator or repressor depending on the context. In follicle cells, the complex plays a central role in the site-specific DNA replication at the chorion loci. During development, the complex represses transcription of developmentally controlled E2F target genes.
Research Articles on Myb	**1.** Data show that L(3)mbt chromosomal targeting requires proteins of a site-specific DNA binding complex Myb-MuvB (MMB core component Mip130)/DREAM.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
