TPM3 cDNA Clone – Tropomyosin 3 (Human)

PRODUCT OVERVIEW

Product Name	TPM3, cDNA Clone
Full Product Name	TPM3 cDNA Clone
Product Gene Name	TPM3 cdna clone
Sequence	atgatggagg ccatcaagaa aaagatgcag atgctgaagt tagacaagga gaatgctctg gatcgggcag agcaagctga agctgagcag aagcaggcag aagaaagaag taaacagctg gaggatgagc tggcagccat gcagaagaag ctgaaaggga cagaggatga gctggacaag tattctgaag ctttgaagga tgcccaggag aagctggaac tggcagagaa gaaggctgct gatgctgagg ctgaggtggc ctccttgaac cgtaggatcc agctggttga agaagagctg gaccgtgctc aggagcgcct ggccactgcc ctgcaaaagc tggaagaagc tgaaaaagct gctgatgaga gtgagagagg tatgaaggtt attgaaaacc gggccttaaa agatgaagaa aagatggaac tccaggaaat ccaactcaaa gaagctaagc acattgcaga agaggcagat aggaagtatg aagaggtggc tcgtaagttg gtgatcattg aaggagactt ggaacgcaca gaggaacgag ctgagctggc agagtctaag tgttctgagc tggaggagga gctgaagaat gtcaccaaca acctcaagtc tcttgaggct caggcggaga agtactctca aaaagaagat aaatatgagg aagaaatcaa gattcttact gataaactca aggaggcaga gacccgtgct gagtttgctg agagatcggt agccaagctg gaaaagacaa ttgatgacct ggaagatgag ctctatgccc agaaactgaa gtacaaggcc attagcgagg agctggacca cgccctcaat gacatgacct ctatataa
Molecular Weight	18,603 Da
OMIM	164970
Vector	pENTR223.1
Clone Sequence Report	Provided with product shipment
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Related Product Information for TPM3 cdna clone	MBS1274935 is a cDNA clone targeting TPM3.
Other Notes	Small volumes of TPM3 cdna clone vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for TPM3. It may not necessarily be applicable to this product.

NCBI GI #	14250021
NCBI GeneID	7170
NCBI Accession #	BC008407
UniProt Secondary Accession #	P12324; Q2QD06; Q5VU58; Q5VU63; Q5VU66; Q5VU71; Q5VU72; Q8TCG3; Q969Q2; Q9NQH8; D3DV71
UniProt Related Accession #	P06753
NCBI Official Full Name	Homo sapiens tropomyosin 3, mRNA
NCBI Official Synonym Full Names	tropomyosin 3
NCBI Official Symbol	TPM3
NCBI Official Synonym Symbols	TM3; TM5; TRK; CFTD; NEM1; TM-5; TM30; CAPM1; TM30nm; TPMsk3; hscp30; HEL-189; HEL-S-82p; OK/SW-cl.5
UniProt Protein Name	Tropomyosin alpha-3 chain

UniProt Synonym Protein Names	Gamma-tropomyosin; Tropomyosin-3; Tropomyosin-5; hTM5
Protein Family	Tropomyosin
UniProt Gene Name	TPM3
UniProt Synonym Gene Names	hTM5
UniProt Entry Name	TPM3_HUMAN
NCBI Protein Information	tropomyosin alpha-3 chain
NCBI Summary for TPM3	This gene encodes a member of the tropomyosin family of actin-binding proteins. Tropomyosins are dimers of coiled-coil proteins that provide stability to actin filaments and regulate access of other actin-binding proteins. Mutations in this gene result in autosomal dominant nemaline myopathy and other muscle disorders. This locus is involved in translocations with other loci, including anaplastic lymphoma receptor tyrosine kinase (ALK) and neurotrophic tyrosine kinase receptor type 1 (NTRK1), which result in the formation of fusion proteins that act as oncogenes. There are numerous pseudogenes for this gene on different chromosomes. Alternative splicing results in multiple transcript variants. [provided by RefSeq, May 2013]
UniProt Comments for TPM3	TPM3: a cytoskeletal protein that binds to actin filaments in muscle and nonmuscle cells. Plays a central role, in association with the troponin complex, in the calcium dependent regulation of vertebrate striated muscle contraction. Smooth muscle contraction is regulated by interaction with caldesmon. In non-muscle cells is implicated in stabilizing cytoskeleton actin filaments. Defects in TPM3 are a cause of nemaline myopathy type 1 (NEM1). Three alternatively spliced isoforms have been described. Protein type: Actin-binding; Contractile; Cytoskeletal; Motility/polarity/chemotaxis; Motor; Oncoprotein Chromosomal Location of Human Ortholog: 1q21.2 Cellular Component: actin filament; cytoskeleton; cytosol; muscle thin filament tropomyosin; stress fiber Molecular Function: actin filament binding; protein binding; structural constituent of muscle Biological Process: actin filament organization; cell motility; muscle contraction; muscle filament sliding Disease: Myopathy, Congenital, With Fiber-type Disproportion; Nemaline Myopathy 1
Research Articles on TPM3	**1.** This work expands the phenotypic spectrum of TPM3-related disease and provides insights into the pathophysiological mechanisms of the actin-tropomyosin complex
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
