Neuraminidase (NA) Influenza A Virus Recombinant Protein

PRODUCT OVERVIEW

Product Name	Neuraminidase (NA), Recombinant Protein
Full Product Name	Recombinant Influenza A virus Neuraminidase (NA), partial
Product Gene Name	NA recombinant protein
Product Synonym Gene Name	NA
Sequence	MNPNQKIITI GSVSLTFAAI CFLMQIAILV TTVTLNFKQY ECDPPATNQV MPCEPIIIER NITEIVYLTN TTIEREICPK LVEYRNWSKP QCKITGFAPF SKDNSIRLSA GGDIWVTREP YVSCDPGRCY QFALGQGTTL DNKHSNDTIH DRTPHRTLLM NELGVPFHLG TRQVCIAWSS SSCHDGKAWL HVCITGYDKN ATASFIYDGR LVDSIGSWSK NILRTQESEC VCINGTCTVV MTDGSASGRA DTRILFIEEG RIVHISPLSG SAQHVEECSC YPRYPGVRCI CRDNWKGSNR PVVDINVKDY SINSSYVCSG LVGDTPRNND RSSNSYCQNP NNEKGNHGVK GWAFDDGNDV WMGRTISEDS RSGYQTFKVI GGWSTPNSKL QINRQVIVDS DNRSGYSGIF SVEGKSCINR CFYVELIRGR RQETRVWWTS NSIVVFCGTS GTYGTGSWPD GADINLMPI
Host	E Coli or Yeast or Baculovirus or Mammalian Cell
Form/Format	Lyophilized or liquid (Format to be determined during the manufacturing process)
Purity/Purification	Greater or equal to 85% purity as determined by SDS-PAGE. (lot specific)
Preparation and Storage	Store at -20 degrees C. For long-term storage, store at -20 degrees C or -80 degrees C. Store working aliquots at 4 degrees C for up to one week. Repeated freezing and thawing is not recommended.
Molecular Weight	52,247 Da
Sequence Positions	1-469
Tag Information	This protein contains an N-terminal tag and may also contain a C-terminal tag. Tag types are determined by various factors including tag-protein stability, please inquire for tag information.
Sterility	Sterile filter available upon request.
Endotoxin	Low endotoxin available upon request.
3D Structure	ModBase 3D Structure for Q09106
Species	Influenza A virus (strain A/Swine/Kanagawa/2/1978 H1N2)
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Related Product Information for NA recombinant protein	MBS1311091 is a recombinant protein targeting NA. Also known as Recombinant Influenza A virus Neuraminidase (NA), partial. Host: E Coli or Yeast or Baculovirus or Mammalian Cell.
Other Notes	Small volumes of NA recombinant protein vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for NA. It may not necessarily be applicable to this product.

NCBI GI #	730191
NCBI Accession #	Q09106.1
UniProt Primary Accession #	Q09106
NCBI Official Full Name	Neuraminidase

UniProt Protein Name	Neuraminidase
Protein Family	Neuraminidase
UniProt Gene Name	NA
UniProt Comments for NA	Catalyzes the removal of terminal sialic acid residues from viral and cellular glycoconjugates. Cleaves off the terminal sialic acids on the glycosylated HA during virus budding to facilitate virus release. Additionally helps virus spread through the circulation by further removing sialic acids from the cell surface. These cleavages prevent self-aggregation and ensure the efficient spread of the progeny virus from cell to cell. Otherwise, infection would be limited to one round of replication. Described as a receptor-destroying enzyme because it cleaves a terminal sialic acid from the cellular receptors. May facilitate viral invasion of the upper airways by cleaving the sialic acid moities on the mucin of the airway epithelial cells. Likely to plays a role in the budding process through its association with lipid rafts during intracellular transport. May additionally display a raft-association independent effect on budding. Plays a role in the determination of host range restriction on replication and virulence. Sialidase activity in late endosome/lysosome traffic seems to enhance virus replication.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
