C14ORF180 Lysate – Tissue Lysate

PRODUCT OVERVIEW

Product Name	C14ORF180, Lysate
Full Product Name	Human C14ORF180 Protein Lysate
Product Gene Name	C14orf180 lysate
Product Synonym Names	C14orf180; C14orf77; NRAC
Host	Human
Form/Format	Lyophilized
Preparation and Storage	Store at -20 degree C Once reconsituted, aliquot and store any remaining material at-20 degree C to avoid repeated freeze-thaw cycles.
Molecular Weight	18kDa
3D Structure	ModBase 3D Structure for Q8N912
Related Product Information for C14orf180 lysate	Human C14ORF180 Protein Lysate 20ug is provided as a Lyophilized powder. This is a Recombinant Protein Lysate produced in HEK293T cells. This protein lysate can be reconsituted using SDS Sample Buffer.
Other Notes	Small volumes of C14orf180 lysate vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for C14orf180 purchase	MBS138209 is a lysate targeting C14orf180. Also known as Human C14ORF180 Protein Lysate. Host: Human.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for C14orf180. It may not necessarily be applicable to this product.

NCBI GI #	56605684
NCBI GeneID	400258
NCBI Accession #	NP_001008404
UniProt Primary Accession #	Q8N912
UniProt Related Accession #	Q8N912
GenBank Nucleotide #	NM_001008404
NCBI Official Full Name	nutritionally-regulated adipose and cardiac enriched protein homolog isoform b
NCBI Official Synonym Full Names	chromosome 14 open reading frame 180
NCBI Official Symbol	C14orf180
NCBI Official Synonym Symbols	NRAC; C14orf77
UniProt Protein Name	Nutritionally-regulated adipose and cardiac enriched protein homolog
UniProt Gene Name	NRAC
UniProt Synonym Gene Names	C14orf180; C14orf77

UniProt Entry Name	NRAC_HUMAN
NCBI Protein Information	nutritionally-regulated adipose and cardiac enriched protein homolog
Research Articles on C14orf180	**1.** Nrac is a nutritionally-regulated adipose and cardiac-enriched gene.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
