TFPI Human Recombinant Protein

PRODUCT OVERVIEW

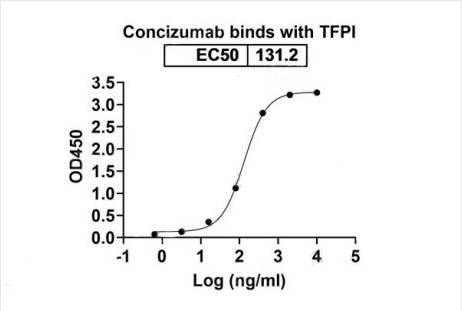

Product Name	TFPI, Recombinant Protein
Full Product Name	Recombinant Human TFPI Protein, C-His
Product Gene Name	TFPI recombinant protein
Product Synonym Names	Extrinsic pathway inhibitor; Lipoprotein-associated coagulation inhibitor; TFPI; EPI; LACI; TFPI1; Tissue factor pathway inhibitor
Host	Mammalian
Form/Format	Liquid; 0.01M PBS, pH7.4.
Purity/Purification	>90% as determined by SDS-PAGE
Preparation and Storage	Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 degree C for one week. Store at -20 to -80 degree C for twelve months from the date of receipt.
Molecular Weight	35,015 Da
Sequence Positions	Met1-Lys282
Chromosome Location	Chromosome: 2; NC_000002.11 (188328957..188419219, complement). Location: 2q32
OMIM	152310
3D Structure	ModBase 3D Structure for P10646
Species	Human
Reconstitution	Reconstitute in sterile water for a stock solution.
Product Categories/Family for TFPI recombinant protein	Recombinant Proteins
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Applications Tested/Suitable for TFPI recombinant protein	SDS-PAGE (SDS), Western Blot (WB), ELISA (EIA), Immunogen
Related Product Information for TFPI recombinant protein	MBS1576284 is a recombinant protein targeting TFPI. Also known as Recombinant Human TFPI Protein, C-His. Host: Mammalian.
Other Notes	Small volumes of TFPI recombinant protein vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

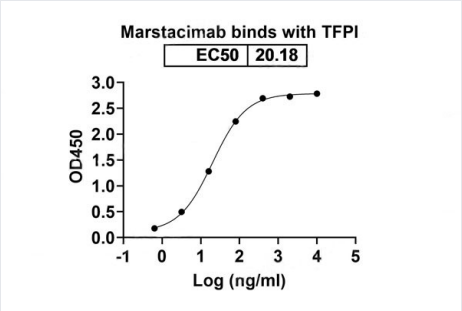

SDS-Page of TFPI recombinant protein
SDS PAGE for recombinant Human TFPI Protein

Bioactivity of TFPI recombinant protein
Detects Befovacimab in indirect ELISAs.

Bioactivity of TFPI recombinant protein
Detects Concizumab in indirect ELISAs.

Bioactivity of TFPI recombinant protein
Detects Marstacimab in indirect ELISAs.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for TFPI. It may not necessarily be applicable to this product.

NCBI GI #	73760409
NCBI GeneID	7035
NCBI Accession #	NP_001027452.1
UniProt Primary Accession #	P10646
UniProt Secondary Accession #	O95103; Q53TS4
UniProt Related Accession #	P10646
GenBank Nucleotide #	NM_001032281.2
NCBI Official Full Name	tissue factor pathway inhibitor isoform b
NCBI Official Synonym Full Names	tissue factor pathway inhibitor (lipoprotein-associated coagulation inhibitor)
NCBI Official Symbol	TFPI
NCBI Official Synonym Symbols	EPI; TFI; LACI; TFPI1
UniProt Protein Name	Tissue factor pathway inhibitor
UniProt Synonym Protein Names	Extrinsic pathway inhibitor; EPI; Lipoprotein-associated coagulation inhibitor
Protein Family	Tissue factor pathway inhibitor
UniProt Gene Name	TFPI
UniProt Synonym Gene Names	LACI; TFPI1; TFPI; EPI; LACI
UniProt Entry Name	TFPI1_HUMAN

NCBI Protein Information	tissue factor pathway inhibitor; anti-convertin; extrinsic pathway inhibitor
NCBI Summary for TFPI	This gene encodes a protease inhibitor that regulates the tissue factor (TF)-dependent pathway of blood coagulation. The coagulation process initiates with the formation of a factor VIIa-TF complex, which proteolytically activates additional proteases (factors IX and X) and ultimately leads to the formation of a fibrin clot. The product of this gene inhibits the activated factor X and VIIa-TF proteases in an autoregulatory loop. The encoded protein is glycosylated and predominantly found in the vascular endothelium and plasma in both free forms and complexed with plasma lipoproteins. Several alternatively spliced transcript variants of this gene have been described, but the full-length nature of some of these variants has not been confirmed. [provided by RefSeq, Jul 2008]
UniProt Comments for TFPI	TFPI: Inhibits factor X (X(a)) directly and, in a Xa-dependent way, inhibits VIIa/tissue factor activity, presumably by forming a quaternary Xa/LACI/VIIa/TF complex. It possesses an antithrombotic action and also the ability to associate with lipoproteins in plasma. 2 isoforms of the human protein are produced by alternative splicing. Protein type: Secreted; Membrane protein, GPI anchor; Secreted, signal peptide; Inhibitor Chromosomal Location of Human Ortholog: 2q32 Cellular Component: extracellular space; cell surface; endoplasmic reticulum; extracellular region; plasma membrane Molecular Function: serine-type endopeptidase inhibitor activity; endopeptidase inhibitor activity Biological Process: blood coagulation, extrinsic pathway; blood coagulation
Research Articles on TFPI	**1.** TFPI inhibited MCP-3 expression induced by TNF-alpha; this effect may be propagated through the NF-kappaB/IkappaB-alpha pathway.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
