Thromboxane B2, Tx-B2 (TX-B2) ELISA Kit for Canine

PRODUCT OVERVIEW

Product Name	Thromboxane B2, TX-B2, ELISA Kit
Full Product Name	Canine Thromboxane B2, TX-B2 ELISA Kit
Product Gene Name	TX-B2 elisa kit
Species Reactivity	Canine
Assay Type	Quantitative Sandwich
Samples	Serum, plasma, cell culture supernates, cell lysates, tissue homogenates and other biological fluids.
Detection Range	7-1500ng/L
Sensitivity	3.14ng/L
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Related Product Information for TX-B2 elisa kit	MBS1608466 is a ready-to-use microwell, strip plate ELISA (enzyme-linked immunosorbent assay) Kit for analyzing the presence of the Thromboxane B2, TX-B2, ELISA Kit target analytes in biological samples. The concentration gradients of the kit standards or positive controls render a theoretical kit detection range in biological research samples containing TX-B2. The ELISA analytical biochemical technique of the MBS1608466 kit is based on TX-B2 antibody-TX-B2 antigen interactions (immunosorbency) and an HRP colorimetric detection system to detect TX-B2 antigen targets in samples. The ELISA Kit is designed to detect native, not recombinant, TX-B2. Appropriate sample types may include undiluted body fluids and/or tissue homogenates, secretions. Quality control assays assessing reproducibility identified the intra-assay CV (%) and inter-assay CV(%).
Other Notes	Small volumes of TX-B2 elisa kit vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
