Beta-Crosslaps, Bctx (bCTx) ELISA Kit for Mouse

PRODUCT OVERVIEW

Product Name	Beta-Crosslaps, bCTx, ELISA Kit
Full Product Name	Mouse Beta-Crosslaps, bCTx ELISA Kit
Product Gene Name	bCTx elisa kit
Species Reactivity	Mouse
Assay Type	Quantitative Sandwich
Samples	Serum, plasma, cell culture supernates, cell lysates, tissue homogenates and other biological fluids.
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Related Product Information for bCTx elisa kit	MBS1608595 is a ready-to-use microwell, strip plate ELISA (enzyme-linked immunosorbent assay) Kit for analyzing the presence of the Beta-Crosslaps, bCTx, ELISA Kit target analytes in biological samples. The concentration gradients of the kit standards or positive controls render a theoretical kit detection range in biological research samples containing bCTx. The ELISA analytical biochemical technique of the MBS1608595 kit is based on bCTx antibody-bCTx antigen interactions (immunosorbency) and an HRP colorimetric detection system to detect bCTx antigen targets in samples. The ELISA Kit is designed to detect native, not recombinant, bCTx. Appropriate sample types may include undiluted body fluids and/or tissue homogenates, secretions. Quality control assays assessing reproducibility identified the intra-assay CV (%) and inter-assay CV(%).
Other Notes	Small volumes of bCTx elisa kit vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
