Mesothelin (MSLN) Mouse Recombinant Protein

PRODUCT OVERVIEW

Product Name	Mesothelin (MSLN), Recombinant Protein
Full Product Name	Mouse Mesothelin Protein, His Tag
Product Gene Name	MSLN recombinant protein
Product Synonym Names	Mesothelin; Pre-pro-megakaryocyte-potentiating factor
Host	HEK293
Form/Format	Lyophilized from sterile PBS, pH7.4. Normally 5%-8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions.
Purity/Purification	The purity of the protein is greater than 85% as determined by SDS-PAGE and Coomassie blue staining.
Preparation and Storage	Store at -20 degree C to -80 degree C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80 degree C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.
Molecular Weight	69,423 Da
3D Structure	ModBase 3D Structure for Q61468
Tag	C-6×His tag
Product Categories/Family for MSLN recombinant protein	Bioactive Protein
Related Product Information for MSLN recombinant protein	Recombinant mouse Mesothelin protein with C-terminal 6×His tag This gene encodes a preproprotein that is proteolytically processed to generate two protein products, megakaryocyte potentiating factor and mesothelin. Megakaryocyte potentiating factor functions as a cytokine that can stimulate colony formation of bone marrow megakaryocytes. Mesothelin is a glycosylphosphatidylinositol-anchored cell-surface protein that may function as a cell adhesion protein. This protein is overexpressed in epithelial mesotheliomas, ovarian cancers and in specific squamous cell carcinomas. Alternative splicing results in multiple transcript variants, at least one of which encodes an isoform that is proteolytically processed. [provided by RefSeq, Feb 2016]
Other Notes	Small volumes of MSLN recombinant protein vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for MSLN purchase	MBS189247 is a recombinant protein targeting MSLN. Also known as Mouse Mesothelin Protein, His Tag. Host: HEK293.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for MSLN. It may not necessarily be applicable to this product.

NCBI GI #	483502036
NCBI GeneID	0
NCBI Accession #	EOA95380.1
UniProt Primary Accession #	Q61468
NCBI Official Full Name	Mesothelin, partial
UniProt Protein Name	Mesothelin
UniProt Synonym Protein Names	Pre-pro-megakaryocyte-potentiating factor
Protein Family	Mesothelin
UniProt Gene Name	Msln
UniProt Synonym Gene Names	Mes; Mpf; MPF
UniProt Comments for MSLN	Membrane-anchored forms may play a role in cellular adhesion.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
