Mannose Binding Lectin (MBL) Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	Mannose Binding Lectin (MBL), Polyclonal Antibody
Full Product Name	APC/CY7-Linked Polyclonal Antibody to Mannose Binding Lectin (MBL)
Product Gene Name	anti-MBL antibody
Product Synonym Names	MBL2; COLEC1; HSMBPC; MBP1; MBP; Collectin-1; Mannose-binding protein C; Mannan Binding Protein; Mannose-Binding Lectin (Protein C)2, Soluble (Opsonic Defect)
Clonality	Polyclonal
Host	Rabbit
Species Reactivity	Human
Concentration	>=100ug/ml (lot specific)
Matching Pairs	Unconjugated Antibody: MBL (MBS2003693) APC-CY7 Conjugated Antibody: MBL (MBS2055664)
Matching Pairs	APC-CY7 Conjugated Antibody: MBL (MBS2055664) Immunogen: MBL (MBS2011247)
Molecular Weight	26,144 Da
OMIM	X15422 mRNA
Supply Chain Verification	Manufactured in a lab with traceable raw materials. Bulk orders can typically be prepared to the customer's specifications, please inquire.
Immunogen	MBL (Leu130~Ile248)
Conjugation	APC-Cy7
Cross Reactivity	Human
Unconjugated Antibody	The unconjugated antibody version of this item is also available as catalog #MBS2003693
ISO Certification	Manufactured in an ISO 9001:2015 and ISO 13485:2016 Certified Laboratory.
Applications Tested/Suitable for anti-MBL antibody	Western Blot (WB), Immunocytochemistry (ICC), Immunohistochemistry (IHC) Formalin/Paraffin, ELISA (ELISA)
Related Product Information for anti-MBL antibody	MBS2055664 is an antibody targeting MBL. Also known as APC/CY7-Linked Polyclonal Antibody to Mannose Binding Lectin (MBL). Reactive in Human. Host: Rabbit.
Other Notes	Small volumes of anti-MBL antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for MBL. It may not necessarily be applicable to this product.

NCBI GI #	189503722
NCBI GeneID	4153
NCBI Accession #	ACE06983.1

UniProt Secondary Accession #	Q4VB12; Q4VB13; Q4VB14; Q5SQS3; Q86SI4; Q96KE4; Q96TF7; Q96TF8; Q96TF9
UniProt Related Accession #	P11226
NCBI Official Full Name	mannose binding lectin, partial
NCBI Official Synonym Full Names	mannose binding lectin 2
NCBI Official Symbol	MBL2
NCBI Official Synonym Symbols	MBL; MBP; MBP1; MBPD; MBL2D; MBP-C; COLEC1; HSMBPC
UniProt Protein Name	Mannose-binding protein C
UniProt Synonym Protein Names	Collectin-1; MBP1; Mannan-binding protein; Mannose-binding lectin
Protein Family	Mannose-binding protein
UniProt Gene Name	MBL2
UniProt Synonym Gene Names	COLEC1; MBL; MBP-C
NCBI Protein Information	mannose-binding protein C
NCBI Summary for MBL	This gene encodes the soluble mannose-binding lectin or mannose-binding protein found in serum. The protein encoded belongs to the collectin family and is an important element in the innate immune system. The protein recognizes mannose and N-acetylglucosamine on many microorganisms, and is capable of activating the classical complement pathway. Deficiencies of this gene have been associated with susceptibility to autoimmune and infectious diseases. [provided by RefSeq, Jul 2008]
UniProt Comments for MBL	MBL2: Calcium-dependent lectin involved in innate immune defense. Binds mannose, fucose and N-acetylglucosamine on different microorganisms and activates the lectin complement pathway. Binds to late apoptotic cells, as well as to apoptotic blebs and to necrotic cells, but not to early apoptotic cells, facilitating their uptake by macrophages. May bind DNA. Protein type: Secreted; Secreted, signal peptide Chromosomal Location of Human Ortholog: 10q21.1 Cellular Component: cell surface; extracellular region; extracellular space Molecular Function: calcium ion binding; calcium-dependent protein binding; mannose binding; protein binding; receptor binding; serine-type endopeptidase activity Biological Process: acute-phase response; complement activation; complement activation, lectin pathway; defense response to bacterium; defense response to Gram-positive bacterium; innate immune response; negative regulation of viral reproduction; opsonization Disease: Mannose-binding Protein Deficiency
Research Articles on MBL	**1.** Low MBL serum levels and deficient MBL2 diplotypes were associated with a higher incidence of acute cellular rejection during the first year after kidney transplantation.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.

Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
