Apotransferrin (apoTf) Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	Apotransferrin (apoTf), Polyclonal Antibody
Full Product Name	PE-Linked Polyclonal Antibody to Apotransferrin (apoTf)
Product Gene Name	anti-apoTf antibody
Product Synonym Names	apo-Transferrin; Apo-Tf
Clonality	Polyclonal
Host	Rabbit
Species Reactivity	Human
Form/Format	Liquid; PBS, pH7.4, containing 0.02% NaN3, 50% glycerol.
Purity/Purification	Antigen-specific affinity chromatography followed by Protein A affinity chromatography
Concentration	>=100ug/ml (lot specific)
Specificity	The antibody is a rabbit polyclonal antibody raised against apoTf. It has been selected for its ability to recognize apoTf in immunohistochemical staining and western blotting.
Preparation and Storage	Store at 4 degree C for frequent use. Aliquot and store at -20 degree C for 12 months. Avoid repeated freeze/thaw cycles. The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37 degree C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.
Matching Pairs	Unconjugated Antibody: apoTf (MBS2005765) PE Conjugated Antibody: apoTf (MBS2118698)
Supply Chain Verification	Manufactured in a lab with traceable raw materials. Bulk orders can typically be prepared to the customer's specifications, please inquire.
Cross Reactivity	Human
Conjugation	PE
Product Categories/Family for anti-apoTf antibody	Metabolic Pathway; Tumor Immunity; Hepatology
ISO Certification	Manufactured in an ISO 9001:2015 and ISO 13485:2016 Certified Laboratory.
Applications Tested/Suitable for anti-apoTf antibody	Western Blot (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC), Immunoprecipitation (IP)
Related Product Information for anti-apoTf antibody	MBS2118698 is an antibody targeting apoTf. Also known as PE-Linked Polyclonal Antibody to Apotransferrin (apoTf). Reactive in Human. Host: Rabbit.
Other Notes	Small volumes of anti-apoTf antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
