TLR-2 (TLR-2/CD282) ELISA Kit for Mouse

PRODUCT OVERVIEW

Product Name	TLR-2 (TLR-2/CD282), ELISA Kit
Full Product Name	Mouse TLR-2 (Toll-like Receptor 2) ELISA Kit
Product Gene Name	TLR-2/CD282 elisa kit
Species Reactivity	Mouse
Assay Type	Sandwich
Samples	Serum, Plasma, Biological Fluids
Detection Range	0.313-20ng/mL
Sensitivity	Min: 0.188ng/mL; Max: 20ng/mL
Specificity	This kit recognizes natural and recombinantMouseTLR-2/CD282. No significant cross-reactivity or interference between MouseTLR-2/CD282 and analogues was observed.
Preparation and Storage	Store at 4 degree C.
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Related Product Information for TLR-2/CD282 elisa kit	Intended Uses: This ELISA kit applies to the invitro quantitative determination of MouseTLR-2/CD282concentrations in serum, plasma and other biological fluids. Principle of the Assay: This ELISA kit uses Sandwich-ELISA as the method. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to TLR-2/CD282. Standards or samples are added to the appropriate micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for TLR-2/CD282and Avidin-Horseradish Peroxidase (HRP) conjugate is added to each micro plate well successively and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain TLR-2/CD282, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The OD value is proportional to the concentration of TLR-2/CD282.You can calculate the concentration of TLR-2/CD282in the samples by comparing the OD of the samples to the standard curve.
Other Notes	Small volumes of TLR-2/CD282 elisa kit vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for TLR-2/CD282 purchase	MBS2516077 is a ready-to-use microwell, strip-or-full plate ELISA (enzyme-linked immunosorbent assay) Kit for analyzing the presence of the TLR-2 (TLR-2/CD282) ELISA Kit target analytes in biological samples. The concentration gradients of the kit standards or positive controls render a theoretical kit detection range in biological research samples containing TLR-2/CD282. The ELISA analytical biochemical technique of the MBS2516077 kit is based on TLR-2/CD282 antibody-TLR-2/CD282 antigen interactions (immunosorbency) and an HRP colorimetric detection system to detect TLR-2/CD282 antigen targets in samples. The ELISA Kit is designed to detect native, not recombinant, TLR-2/CD282. Appropriate sample types may include undiluted body fluids and/or tissue homogenates, secretions. Quality control assays assessing reproducibility identified the intra-assay CV (%) and inter-assay CV(%).

Typical Testing Data/Standard Curve (for reference only) of TLR-2/CD282 elisa kit

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
