COX7A2L Antibody – Rabbit Polyclonal

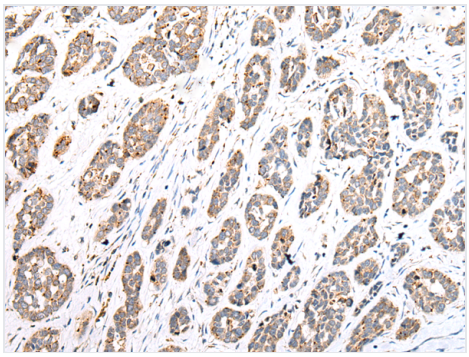

PRODUCT OVERVIEW

Product Name	COX7A2L, Polyclonal Antibody
Full Product Name	COX7A2L Polyclonal Antibody
Product Gene Name	anti-COX7A2L antibody
Product Synonym Names	COX7a related protein; COX7a-related protein; COX7A2L; COX7AR; COX7R; COX7RP; Cytochrome c oxidase subunit 7A-related protein; Cytochrome c oxidase subunit 7A-related protein, mitochondrial; Cytochrome c oxidase subunit 7A2 like; Cytochrome c oxidase subunit VII-related protein; Cytochrome c oxidase subunit VIIa polypeptide 2 like; Cytochrome c oxidase subunit VIIa related protein, mitochondrial; Cytochrome c oxidase subunit VIIa-related protein; EB1; Estrogen receptor binding CpG island; Mitochondrial; SIG81
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	PBS with 0.05% NaN3 and 40% Glycerol, pH7.4
Purity/Purification	Antigen Affinity Purification
Concentration	0.9mg/mL (lot specific)
Preparation and Storage	Store at -20 degree C. Avoid freeze/thaw cycles.
OMIM	605771
3D Structure	ModBase 3D Structure for O14548
Immunogen	Synthetic peptide of human COX7A2L
Conjugation	Unconjugated
Product Categories/Family for anti-COX7A2L antibody	Cancer; Metabolism; Signal Transduction
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Applications Tested/Suitable for anti-COX7A2L antibody	Immunohistochemistry (IHC), ELISA (EIA)
Application Notes for anti-COX7A2L antibody	IHC: 1:25-1:100 ELISA: 1:2000-1:5000
Related Product Information for anti-COX7A2L antibody	Cytochrome c oxidase (COX), the terminal component of the mitochondrial respiratory chain, catalyzes the electron transfer from reduced cytochrome c to oxygen. This component is a heteromeric complex consisting of 3 catalytic subunits encoded by mitochondrial genes and multiple structural subunits encoded by nuclear genes. The mitochondrially-encoded subunits function in electron transfer, and the nuclear-encoded subunits may function in the regulation and assembly of the complex. This nuclear gene encodes a protein similar to polypeptides 1 and 2 of subunit VIIa in the C-terminal region, and also highly similar to the mouse Sig81 protein sequence. This gene is expressed in all tissues, and upregulated in a breast cancer cell line after estrogen treatment. It is possible that this gene represents a regulatory subunit of COX and mediates the higher level of energy production in target cells by estrogen.
Other Notes	Small volumes of anti-COX7A2L antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

Searchable Terms for COX7A2L purchase	MBS2563283 is an antibody targeting COX7A2L. Also known as COX7A2L Polyclonal Antibody. Reactive in Human. Host: Rabbit.

Immunohistochemistry (IHC) of anti-COX7A2L antibody
Immunohistochemistry of paraffin-embedded Human breast cancer tissue using COX7A2L Polyclonal Antibody at dilution of 1:35(×200)

Immunohistochemistry (IHC) of anti-COX7A2L antibody
Immunohistochemistry of paraffin-embedded Human esophagus cancer tissue using COX7A2L Polyclonal Antibody at dilution of 1:35(×200)

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for COX7A2L. It may not necessarily be applicable to this product.

NCBI GI #	18105037
NCBI GeneID	9167
NCBI Accession #	NP_004709.2
UniProt Primary Accession #	O14548
UniProt Related Accession #	O14548
GenBank Nucleotide #	NP_004709.2
NCBI Official Full Name	cytochrome c oxidase subunit 7A-related protein, mitochondrial isoform a
NCBI Official Synonym Full Names	cytochrome c oxidase subunit 7A2 like
NCBI Official Symbol	COX7A2L
NCBI Official Synonym Symbols	EB1; SIG81; COX7AR; COX7RP
UniProt Protein Name	Cytochrome c oxidase subunit 7A-related protein, mitochondrial
UniProt Synonym Protein Names	COX7a-related protein; Cytochrome c oxidase subunit VIIa-related protein; EB1
Protein Family	Cytochrome c oxidase subunit 7A-related protein
UniProt Gene Name	COX7A2L
UniProt Synonym Gene Names	COX7AR; COX7RP
UniProt Entry Name	COX7R_HUMAN
NCBI Protein Information	cytochrome c oxidase subunit 7A-related protein, mitochondrial
NCBI Summary for COX7A2L	Cytochrome c oxidase (COX), the terminal component of the mitochondrial respiratory chain, catalyzes the electron transfer from reduced cytochrome c to oxygen. This component is a heteromeric complex consisting of 3 catalytic subunits encoded by mitochondrial genes and multiple structural subunits encoded by nuclear genes. The mitochondrially-encoded subunits function in electron transfer, and the nuclear-encoded subunits may function in the regulation and assembly of the complex. This nuclear gene encodes a protein similar to polypeptides 1 and 2 of subunit VIIa in the C-terminal region, and also highly similar to the mouse Sig81 protein sequence. This gene is expressed in all tissues, and upregulated in a breast cancer cell line after estrogen treatment. It is possible that this gene represents a regulatory subunit of COX and mediates the higher level of energy production in target cells by estrogen. Several transcript variants, some protein-coding and others non-protein coding, have been found for this gene. [provided by RefSeq, Jan 2016]

UniProt Comments for COX7A2L	Function: May be a regulatory subunit of cytochrome c oxidase that mediates the higher level of energy production in target cells by estrogen. Subcellular location: Mitochondrion inner membrane By similarity. Induction: By estrogen. Sequence similarities: Belongs to the cytochrome c oxidase VIIa family.
Research Articles on COX7A2L	**1.** COX7AR is a stress-inducible mitochondrial COX subunit that facilitates human breast cancer malignancy
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.
