CD193 Antibody – Mouse Monoclonal

PRODUCT OVERVIEW

Product Name	CD193, Monoclonal Antibody
Full Product Name	PE Anti-Human CD193 Antibody [5E8]
Product Gene Name	anti-CD193 antibody
Product Synonym Names	CC CKR3, MIP1-alpha receptor like-2, eotaxin receptor,CCR,C-C chemokine receptor type 3
Clonality	Monoclonal
Isotype	Mouse IgG2b, kappa
Clone Number	5E8
Host	Mouse
Species Reactivity	Human
Form/Format	Liquid
Preparation and Storage	Store at 2~8 degree C and protected from prolonged exposure to light. Do not freeze.
Matching Pairs	Antibody: CD193 (MBS2572128) Isotype Control: IgG2b Clone #MPC-11 (MBS2557786)
Molecular Weight	376
OMIM	601268
3D Structure	ModBase 3D Structure for P51677
Conjugation	PE
Buffer	PBS with 0.05% Proclin300, 1% Protein protectant
Cellular Localization	Membrane
Product Categories/Family for anti-CD193 antibody	FC Antibody
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Applications Tested/Suitable for anti-CD193 antibody	Flow Cytometry (FC/FACS)
Related Product Information for anti-CD193 antibody	CD193, also known as CC-chemokine receptor 3 (CCR3), CC CKR3, MIP1-alpha receptor like-2, and eotaxin receptor, is a member of the G protein-coupled seven transmembrane receptors family. It binds to the CC chemokines eotaxin, eotaxin-2, and eotaxin-3 with high affinity. CCR3 has also been reported to bind RANTES, MCP-3, and MCP-4 with low affinity. CCR3 receptor is expressed on human eosinophils, basophils, mast cells, mononuclear phagocytes, platelets, CD34+ hematopoietic progenitor cells, Th2-like lymphocytes, and keratinocytes. CCR3 is thought to play a role in allergic diseases such as bronchial asthma and allergic rhinitis. CCR3 is a co-receptor for HIV-1 and HIV-2, and the binding of eotaxin with CCR3 has been shown to inhibit HIV infection in some cell types.
Other Notes	Small volumes of anti-CD193 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for CD193 purchase	MBS2572128 is an antibody targeting CD193. Also known as PE Anti-Human CD193 Antibody [5E8]. Reactive in Human. Host: Mouse.

Testing Data of anti-CD193 antibody
Human peripheral blood granulocytes are stained with APC Anti-Human CD16 Antibody and PE Anti-Human CD193/CCR3 Antibody (Left). Granulocytes are stained with APC Anti-Human CD16 Antibody and PE Mouse IgG2b,kappa Isotype Control (Right).

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for CD193. It may not necessarily be applicable to this product.

NCBI GI #	1705892
NCBI GeneID	1232
NCBI Accession #	P51677.1
UniProt Primary Accession #	P51677
UniProt Secondary Accession #	Q15748; Q2YDB9; Q86WD2; Q8TDP6; Q9ULY8; B3KVQ1; F5GWL6
UniProt Related Accession #	P51677
NCBI Official Full Name	C-C chemokine receptor type 3
NCBI Official Synonym Full Names	chemokine (C-C motif) receptor 3
NCBI Official Symbol	CCR3
NCBI Official Synonym Symbols	CKR3; CD193; CMKBR3; CC-CKR-3
UniProt Protein Name	C-C chemokine receptor type 3
UniProt Synonym Protein Names	Eosinophil eotaxin receptor; CD_antigen: CD193
Protein Family	C-C chemokine receptor
UniProt Gene Name	CCR3
UniProt Synonym Gene Names	CMKBR3; C-C CKR-3; CC-CKR-3; CCR-3; CCR3; CKR3
UniProt Entry Name	CCR3_HUMAN
NCBI Protein Information	C-C chemokine receptor type 3; CCR-3; C-C CKR-3; b-chemokine receptor; CC chemokine receptor 3; eosinophil eotaxin receptor; eosinophil CC chemokine receptor 3
NCBI Summary for CD193	The protein encoded by this gene is a receptor for C-C type chemokines. It belongs to family 1 of the G protein-coupled receptors. This receptor binds and responds to a variety of chemokines, including eotaxin (CCL11), eotaxin-3 (CCL26), MCP-3 (CCL7), MCP-4 (CCL13), and RANTES (CCL5). It is highly expressed in eosinophils and basophils, and is also detected in TH1 and TH2 cells, as well as in airway epithelial cells. This receptor may contribute to the accumulation and activation of eosinophils and other inflammatory cells in the allergic airway. It is also known to be an entry co-receptor for HIV-1. This gene and seven other chemokine receptor genes form a chemokine receptor gene cluster on the chromosomal region 3p21. Alternatively spliced transcript variants have been described. [provided by RefSeq, Sep 2009]

UniProt Comments for CD193	CCR3: Receptor for a C-C type chemokine. Binds to eotaxin, eotaxin-3, MCP-3, MCP-4, RANTES and MIP-1 delta. Subsequently transduces a signal by increasing the intracellular calcium ions level. Alternative coreceptor with CD4 for HIV-1 infection. Belongs to the G-protein coupled receptor 1 family. Protein type: GPCR, family 1; Membrane protein, integral; Receptor, cytokine; Receptor, GPCR; Motility/polarity/chemotaxis; Membrane protein, multi-pass Chromosomal Location of Human Ortholog: 3p21.3 Cellular Component: integral to plasma membrane; plasma membrane Molecular Function: protein binding; C-C chemokine receptor activity; chemokine receptor activity Biological Process: G-protein signaling, coupled to cAMP nucleotide second messenger; positive regulation of angiogenesis; elevation of cytosolic calcium ion concentration; viral reproduction; cellular defense response; positive regulation of endothelial cell proliferation; inflammatory response; chemotaxis; cell adhesion
Research Articles on CD193	**1.** In vitro chemotaxis assay indicates dominant role of RANTES and IP-10 in the selective recruitment of CXCR3(+)CCR5(+)cells at the tubercular pathologic sites.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
