Lysozyme (LYZ) Antibody – Mouse Monoclonal

PRODUCT OVERVIEW

Product Name	Lysozyme (LYZ), Monoclonal Antibody
Full Product Name	Lysozyme Monoclonal Antibody
Product Gene Name	anti-LYZ antibody
Clonality	Monoclonal
Clone Number	YN02476m
Host	Mouse
Species Reactivity	Human
Preparation and Storage	The RTU should be stored at 2~8 degree C protecting from light (Do not freeze),Valid for 12 months.
Molecular Weight	148
OMIM	phenotype 153450
3D Structure	ModBase 3D Structure for P61626
Product Categories/Family for anti-LYZ antibody	Pathology Antibodies; Primary Antibodies; Ready-to-Use Antibodies
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Applications Tested/Suitable for anti-LYZ antibody	Immunohistochemistry-Paraffin (IHC-P)
Related Product Information for anti-LYZ antibody	Lysozyme is a marker of histiocytes and tumors from which they originate. This antibody is used in combination with CD68 and AACT for the identification of malignant histiocytic tumors and malignant histiocytosis.
Other Notes	Small volumes of anti-LYZ antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for LYZ purchase	MBS2580098 is an antibody targeting LYZ. Also known as Lysozyme Monoclonal Antibody. Reactive in Human. Host: Mouse.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for LYZ. It may not necessarily be applicable to this product.

NCBI GI #	48428995
NCBI GeneID	4069
NCBI Accession #	P61626.1
UniProt Primary Accession #	P61626
UniProt Secondary Accession #	P00695; Q13170; Q9UCF8
UniProt Related Accession #	P61626
NCBI Official Full Name	Lysozyme C
NCBI Official Synonym Full Names	lysozyme

NCBI Official Symbol	LYZ
NCBI Official Synonym Symbols	LZM
UniProt Protein Name	Lysozyme C
UniProt Synonym Protein Names	1,4-beta-N-acetylmuramidase C
Protein Family	Lysozyme
UniProt Gene Name	LYZ
UniProt Synonym Gene Names	LZM
UniProt Entry Name	LYSC_HUMAN
NCBI Protein Information	lysozyme C; c-type lysozyme; 1,4-beta-N-acetylmuramidase C
NCBI Summary for LYZ	This gene encodes human lysozyme, whose natural substrate is the bacterial cell wall peptidoglycan (cleaving the beta[1-4]glycosidic linkages between N-acetylmuramic acid and N-acetylglucosamine). Lysozyme is one of the antimicrobial agents found in human milk, and is also present in spleen, lung, kidney, white blood cells, plasma, saliva, and tears. The protein has antibacterial activity against a number of bacterial species. Missense mutations in this gene have been identified in heritable renal amyloidosis. [provided by RefSeq, Oct 2014]
UniProt Comments for LYZ	LYZ: Lysozymes have primarily a bacteriolytic function; those in tissues and body fluids are associated with the monocyte- macrophage system and enhance the activity of immunoagents. Defects in LYZ are a cause of amyloidosis type 8 (AMYL8); also known as systemic non-neuropathic amyloidosis or Ostertag-type amyloidosis. AMYL8 is a hereditary generalized amyloidosis due to deposition of apolipoprotein A1, fibrinogen and lysozyme amyloids. Viscera are particularly affected. There is no involvement of the nervous system. Clinical features include renal amyloidosis resulting in nephrotic syndrome, arterial hypertension, hepatosplenomegaly, cholestasis, petechial skin rash. Belongs to the glycosyl hydrolase 22 family. Protein type: EC 3.2.1.17; Endoplasmic reticulum; Secreted, signal peptide; Vesicle; Secreted; Hydrolase Chromosomal Location of Human Ortholog: 12q15 Cellular Component: extracellular space; extracellular region Molecular Function: identical protein binding; lysozyme activity Biological Process: retinal homeostasis; metabolic process; cytolysis; defense response to bacterium; inflammatory response Disease: Amyloidosis, Familial Visceral
Research Articles on LYZ	**1.** Both mRNA and protein levels of lysozyme were significantly higher in patients with biofilm associated chronic rhinosinusitis (CRS) than those with CRS and no biofilm and controls.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.

Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
