IL-2 Antibody – Rat

PRODUCT OVERVIEW

Product Name	IL-2, Antibody
Full Product Name	Purified Anti-Mouse IL-2 Antibody [JES6-1A12]
Product Gene Name	anti-IL-2 antibody
Product Synonym Names	POIL; OTTHUMP; Aldesleukin; IL 2; Interleukin 2; Involved in regulation of T cell clonal expansion; Lymphokine; OTTHUMP00000164090; POIL2; T Cell Growth Factor; T-cell growth facter; Interleukin-2; IL2; TCGF; T-cell growth factor; Il-2
Isotype	IgG2b, kappa
Clone Number	JES6-1A12
Host	Rat
Species Reactivity	Mouse
Preparation and Storage	Store at 4 degree C valid for 12 months or -20 degree C valid for long term storage, avoid freeze/thaw cycles.
Molecular Weight	43,000
Chromosome Location	Chromosome: 3; NC_000069.6 (37120713..37125954, complement). Location: 3 B-C; 3 18.3 cM
3D Structure	ModBase 3D Structure for P04351
Conjugation	Unconjugated
Product Categories/Family for anti-IL-2 antibody	Antibodies and Reagents; Primary Antibodies; Flow Cytometry Antibodies
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Applications Tested/Suitable for anti-IL-2 antibody	Intracellular Flow Cytometry (ICFCM)
Related Product Information for anti-IL-2 antibody	MBS2585153 is an antibody targeting IL-2. Also known as Purified Anti-Mouse IL-2 Antibody [JES6-1A12]. Reactive in Mouse. Host: Rat.
Other Notes	Small volumes of anti-IL-2 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

Testing Data of anti-IL-2 antibody
HEK293T cells transfected with pcDNA3.1 plasmid encoding Mouse IL-2 gene were stained with 0.2 ?g Purified Anti-Mouse IL-2 Antibody[JES6-1A12] (Right) and 0.2 ?g Rat IgG2b, ? Isotype Control (Left), followed by APC-conjugated Goat Anti-Rat IgG Secondary Antibody.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for IL-2. It may not necessarily be applicable to this product.

NCBI GI #	7110653
NCBI GeneID	16183
NCBI Accession #	NP_032392.1
UniProt Primary Accession #	P04351
UniProt Secondary Accession #	P97945; Q791T3
UniProt Related Accession #	P04351
GenBank Nucleotide #	NM_008366.3
NCBI Official Full Name	interleukin-2
NCBI Official Synonym Full Names	interleukin 2
NCBI Official Symbol	Il2
NCBI Official Synonym Symbols	Il-2
UniProt Protein Name	Interleukin-2
UniProt Synonym Protein Names	T-cell growth factor
UniProt Gene Name	Il2
UniProt Synonym Gene Names	Il-2; IL-2; TCGF
UniProt Entry Name	IL2_MOUSE
NCBI Protein Information	interleukin-2; TCGF; T-cell growth factor
UniProt Comments for IL-2	IL2: Produced by T-cells in response to antigenic or mitogenic stimulation, this protein is required for T-cell proliferation and other activities crucial to regulation of the immune response. Can stimulate B-cells, monocytes, lymphokine- activated killer cells, natural killer cells, and glioma cells. A chromosomal aberration involving IL2 is found in a form of T-cell acute lymphoblastic leukemia (T-ALL). Translocation t(4;16)(q26;p13) with involves TNFRSF17. Belongs to the IL-2 family. Protein type: Secreted, signal peptide; Secreted; Oncoprotein; Cytokine Cellular Component: extracellular space; cell; extracellular region; cytosol Molecular Function: growth factor activity; interleukin-2 receptor binding; cytokine activity; carbohydrate binding; glycosphingolipid binding; kappa-type opioid receptor binding Biological Process: positive regulation of interleukin-17 production; positive regulation of isotype switching to IgG isotypes; regulation of T cell homeostatic proliferation; positive regulation of regulatory T cell differentiation; negative regulation of heart contraction; immune system process; positive regulation of immunoglobulin secretion; positive regulation of activated T cell proliferation; negative regulation of lymphocyte proliferation; G-protein coupled receptor protein signaling pathway; elevation of cytosolic calcium ion concentration; positive regulation of interferon-gamma production; negative regulation of protein amino acid phosphorylation; positive regulation of T cell differentiation; positive regulation of tyrosine phosphorylation of Stat5 protein; negative regulation of inflammatory response; protein kinase C activation; positive regulation of B cell proliferation; positive regulation of T cell proliferation; positive regulation of transcription from RNA polymerase II promoter; immune response; positive regulation of protein amino acid phosphorylation; negative regulation of B cell apoptosis
Research Articles on IL-2	**1.** IL-2 signaling of CD4+ T cells play a critical role in multiple phases of CD8+ cytotoxic T lymphocytes responses following adenovirus vaccination.

Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
