Hepatitis C Virus Antibody – Mouse Monoclonal

PRODUCT OVERVIEW

Product Name	Hepatitis C virus, Monoclonal Antibody
Full Product Name	Hapatitis C Virus
Clonality	Monoclonal
Isotype	IgG1
Host	Mouse
Form/Format	Purified
Specificity	core
Ig Subclass Note	Numerous clones specific to HCV. See accompanying table for specificities & reactivity dat.
Product Categories/Family for anti-Hepatitis C virus antibody	Monotope Monoclonal Antibody
Related Product Information for anti-Hepatitis C virus antibody	MONOTOPE purified preparations consist of >90% pure mouse monoclonal antibody which has been purified from ascites fluid or culture medium by protein A chromatography or sequential differential precipitations. The final preparation is formulated to a protein concentration of 100 ug/ml in 0.01 M phosphate buffered saline, pH 7.2 and contains 0.1% sodium azide. Each vial contains 1.0 ml. This product contains no stabilizing proteins and should be stored at -20 degree C until ready for use. Avoid repeated freeze-thawing by storing multiple aliquots at -20 degree C. Working dilution must be determined by the user. Suggested starting ranges are 1:10-1:50 for IFA, blotting & IHC and 1:20-1:200 for ELISA. Custom conjugation of this antibody with HRP, alkaline phosphatase, biotin and fluorescein is available on a minimum order basis
Other Notes	Small volumes of anti-Hepatitis C virus antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for Hepatitis C virus purchase	MBS320122 is an antibody targeting Hepatitis C virus. Also known as Hapatitis C Virus. Host: Mouse.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for Hepatitis C virus. It may not necessarily be applicable to this product.

NCBI GI #	295901482
NCBI Official Full Name	hepatitis C virus polyprotein
Protein Family	Pecanex-like protein
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.

Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
