# Adenovirus Antibody – Goat Polyclonal

## PRODUCT OVERVIEW

| | |
|---|---|
| **Product Name** | Adenovirus, Polyclonal Antibody |
| **Full Product Name** | Adenovirus |
| **Product Synonym Names** | Adenovirus Antiserum Products |
| **Clonality** | Polyclonal |
| **Host** | Goat |
| **Form/Format** | BIOTIN |
| **Specificity** | Purified Hexon Assembly |
| **Immunogen** | Hexon from Adenovirus, type 2 |
| **Reactivity Note** | Does not cross-react with Para 1-3, Infl. A & B, or RSV |
| **Uninfected Cell Reactivity** | Negative vs. HE-p2 cells by indirect immunofluorescence |
| **Other Note** | Reactive with types 1, 2, 3, 5, 6, 7a, 8, 31, 40 & 41. Others not tested. |
| **Antiserum Characterization** | (neat) |
| **Product Categories/Family for anti-Adenovirus antibody** | OMNITOPE Polyclonal Antibodies |
| **Applications Tested/Suitable for anti-Adenovirus antibody** | ELISA |
| **Application Notes for anti-Adenovirus antibody** | Titer: >=1:10,000 by ELISA |
| **Related Product Information for anti-Adenovirus antibody** | This product consists of purified IgG fraction of the above antiserum covalently coupled with the N-Hydroxysuccinimide ester of biotin under mild conditions to give a high degree of substitution. The product is formulated in a phosphate saline buffer (0.01M, pH 7.2) containing 0.1% sodium azide preservative. No stabilizing proteins have been added. Possible applications for this product include avidin and streptavidin amplification systems for immunohistochemistry, ELISA, fluorescence microscopy and immunoblotting. In addition, this product may be used in place of neat antiserum in almost any appropriate antibody-based technique. Protein concentration is 4-5 mg/ml. Recommended short term (<6 months) storage is liquid at 2-8 degree C. For longer term storage, aliquot and freeze. Unit size is 1.0 ml. |
| **Other Notes** | Small volumes of anti-Adenovirus antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply. |
| **Searchable Terms for Adenovirus purchase** | MBS324091 is an antibody targeting Adenovirus. Host: Goat. |

## ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for Adenovirus. It may not necessarily be applicable to this product.

| | |
|---|---|
| **Protein Family** | Adenovirus death protein |

| | |

| **Precautions** | All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines. |
| **Disclaimer** | While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice.<br><br>It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information. |
| **Product Note** | Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details. |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures.
