SHB Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	SHB, Polyclonal Antibody
Full Product Name	Rabbit anti-SHB Antibody
Product Gene Name	anti-SHB antibody
Product Synonym Names	SH2 domain-containing adapter protein B
Clonality	Polyclonal
Host	Rabbit
Species Reactivity	Human, Mouse, Rat
Form/Format	Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.
Purity/Purification	The antibody was purified by immunogen affinity chromatography.
Concentration	1mg/mL (lot specific)
Preparation and Storage	Shipped at 4 degree C. Upon delivery aliquot and store at -20 degree C for one year. Avoid freeze/thaw cycles.
Molecular Weight	55,042 Da
Chromosome Location	Chromosome: 9; NC_000009.11 (37915895..38069210, complement). Location: 9p13.2
OMIM	600314
3D Structure	ModBase 3D Structure for Q15464
Immunogen	KLH-conjugated synthetic peptide encompassing a sequence within the C-term region of human SHB. The exact sequence is proprietary.
Product Categories/Family for anti-SHB antibody	Primary antibodies
ISO Certification	Manufactured in an ISO 13485:2003 and EN ISO 13485:2012 Certified Laboratory.
Applications Tested/Suitable for anti-SHB antibody	Western Blot (WB)
Application Notes for anti-SHB antibody	WB: 1:500-1:1000
Related Product Information for anti-SHB antibody	MBS4513822 is an antibody targeting SHB. Also known as Rabbit anti-SHB Antibody. Reactive in Human, Mouse, Rat. Host: Rabbit.
Other Notes	Small volumes of anti-SHB antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for SHB. It may not necessarily be applicable to this product.

NCBI GI #	106879210
NCBI GeneID	6461
NCBI Accession #	NP_003019.2

UniProt Primary Accession #	Q15464
UniProt Secondary Accession #	Q6PD21
UniProt Related Accession #	Q15464
GenBank Nucleotide #	NM_003028.2
NCBI Official Full Name	SH2 domain-containing adapter protein B
NCBI Official Synonym Full Names	Src homology 2 domain containing adaptor protein B
NCBI Official Symbol	SHB
NCBI Official Synonym Symbols	bA3J10.2; RP11-3J10.8
UniProt Protein Name	SH2 domain-containing adapter protein B
Protein Family	SH2 domain-containing adapter protein
UniProt Gene Name	SHB
UniProt Entry Name	SHB_HUMAN
NCBI Protein Information	SH2 domain-containing adapter protein B; SHB adaptor protein (a Src homology 2 protein); SHB (Src homology 2 domain containing) adaptor protein B
UniProt Comments for SHB	SHB: Adapter protein which regulates several signal transduction cascades by linking activated receptors to downstream signaling components. May play a role in angiogenesis by regulating FGFR1, VEGFR2 and PDGFR signaling. May also play a role in T-cell antigen receptor/TCR signaling, interleukin-2 signaling, apoptosis and neuronal cells differentiation by mediating basic- FGF and NGF-induced signaling cascades. May also regulate IRS1 and IRS2 signaling in insulin-producing cells. 2 isoforms of the human protein are produced by alternative splicing. Protein type: Adaptor/scaffold Chromosomal Location of Human Ortholog: 9p13.2 Cellular Component: plasma membrane; cytosol Molecular Function: protein binding; SH3/SH2 adaptor activity Biological Process: positive regulation of signal transduction; apoptosis; angiogenesis; signal transduction; cell differentiation; vascular endothelial growth factor receptor signaling pathway
Research Articles on SHB	**1.** It is concluded that SHB and angiogenic factors promote the development of cells expressing PDX-1 and insulin in EBs and that such cells can be separated by FACS.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.

Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
