Soluble Lectin-Like Oxidized Low Density Lipoprotein Receptor-1 (sLOX-1) ELISA Kit for Cat

PRODUCT OVERVIEW

Product Name	Soluble Lectin-Like Oxidized Low Density Lipoprotein Receptor-1 (sLOX-1), ELISA Kit
Full Product Name	Cat Soluble Lectin-Like Oxidized Low Density Lipoprotein Receptor-1 ELISA Kit
Product Gene Name	sLOX-1 elisa kit
Species Reactivity	Cat
Preparation and Storage	Store all reagents at 2-8 degree C
Related Product Information for sLOX-1 elisa kit	MBS049201 is a ready-to-use microwell, strip-or-full plate ELISA (enzyme-linked immunosorbent assay) Kit for analyzing the presence of the Soluble Lectin-Like Oxidized Low Density Lipoprotein Receptor-1 (sLOX-1) ELISA Kit target analytes in biological samples. The concentration gradients of the kit standards or positive controls render a theoretical kit detection range in biological research samples containing sLOX-1. The ELISA analytical biochemical technique of the MBS049201 kit is based on sLOX-1 antibody-sLOX-1 antigen interactions (immunosorbency) and an HRP colorimetric detection system to detect sLOX-1 antigen targets in samples. The ELISA Kit is designed to detect native, not recombinant, sLOX-1. Appropriate sample types may include undiluted body fluids and/or tissue homogenates, secretions. Quality control assays assessing reproducibility identified the intra-assay CV (%) and inter-assay CV(%).
Other Notes	Small volumes of sLOX-1 elisa kit vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
