GFP Positive Control

PRODUCT OVERVIEW

Product Name	GFP, Positive Control
Full Product Name	GFP Positive Control
Product Gene Name	GFP positive control
Product Synonym Names	Western Blot Positive Control Green fluorescent protein Antibody; gFP antibody; Green fluorescent protein antibody; yfp antibody
Form/Format	Western blot positive control
Concentration	Empirically set for optimal signal-to-noise ratio (lot specific)
Preparation and Storage	Store at -20°C for long term storage
Immunogen	Purified protein
Applications Tested/Suitable for GFP positive control	Western Blot (WB)
Application Notes for GFP positive control	WB: 1:2,500-1:5,000 Related Products: Affinity Purified: MBS5400410 BIOTIN-Conjugated: MBS5400411 FITC-Conjugated: MBS5400412 Antigenic Blocking Peptide: MBS5400605
Related Product Information for GFP positive control	MBS5400707 is a positive control targeting GFP.
Other Notes	Small volumes of GFP positive control vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

Western Blot (WB) of GFP positive control

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for GFP. It may not necessarily be applicable to this product.

Protein Family	Green fluorescent protein

Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
