Il-34 Blocking Peptide

PRODUCT OVERVIEW

Product Name	IL-34, Blocking Peptide
Full Product Name	IL-34 Blocking Peptide
Product Gene Name	IL-34 blocking peptide
Preparation and Storage	Store at -20 degree C for long term storage
Antibody/Peptide Pairs	IL-34 peptide (MBS5401371) is used for blocking the activity of IL-34 antibody (MBS5401136)
Antibody/Peptide Pairs	IL-34 peptide (MBS5401371) is used for blocking the activity of IL-34 antibody (MBS5401137)
Molecular Weight	27,482 Da
Chromosome Location	Chromosome: 16; NC_000016.9 (70613798..70694585). Location: 16q22.1
OMIM	612081
Immunogen	Interleukin-34
Product Categories/Family for IL-34 blocking peptide	Biomolecule
Applications Tested/Suitable for IL-34 blocking peptide	Immunodepletion, Immunocompetition
Related Product Information for IL-34 blocking peptide	MBS5401371 is a blocking peptide targeting IL-34. Antigenic Blocking Peptide Interleukin-34 Antibody
Other Notes	Small volumes of IL-34 blocking peptide vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for IL-34. It may not necessarily be applicable to this product.

NCBI GI #	289666752
NCBI GeneID	146433
NCBI Accession #	NP_001166243.1
UniProt Primary Accession #	Q6ZMJ4
UniProt Secondary Accession #	Q8N6L2; B2RC28; B2Z4A8; B2ZC70
UniProt Related Accession #	Q6ZMJ4
GenBank Nucleotide #	NM_001172772.1
NCBI Official Full Name	interleukin-34 isoform 1
NCBI Official Synonym Full Names	interleukin 34
NCBI Official Symbol	IL34
NCBI Official Synonym Symbols	IL-34; C16orf77
UniProt Protein Name	Interleukin-34

UniProt Gene Name	IL34
UniProt Synonym Gene Names	C16orf77; IL-34
UniProt Entry Name	IL34_HUMAN
NCBI Protein Information	interleukin-34
NCBI Summary for IL-34	Interleukin-34 is a cytokine that promotes the differentiation and viability of monocytes and macrophages through the colony-stimulating factor-1 receptor (CSF1R; MIM 164770) (Lin et al., 2008 [PubMed 18467591]).[supplied by OMIM, May 2008]
UniProt Comments for IL-34	IL34: Cytokine that promotes the proliferation, survival and differentiation of monocytes and macrophages. Promotes the release of proinflammatory chemokines, and thereby plays an important role in innate immunity and in inflammatory processes. Plays an important role in the regulation of osteoclast proliferation and differentiation, and in the regulation of bone resorption. Signaling via CSF1R and its downstream effectors stimulates phosphorylation of MAPK1/ERK2 AND MAPK3/ERK1. Belongs to the IL-34 family. 2 isoforms of the human protein are produced by alternative splicing. Protein type: Secreted, signal peptide; Secreted; Cell cycle regulation; Cytokine Chromosomal Location of Human Ortholog: 16q22.1 Cellular Component: extracellular space Molecular Function: growth factor activity; cytokine activity; macrophage colony stimulating factor receptor binding Biological Process: positive regulation of cell proliferation; innate immune response; positive regulation of protein amino acid phosphorylation; inflammatory response
Research Articles on IL-34	**1.** the feline CSF-1R was cloned and the responsiveness to CSF-1 and IL-34 from a range of species, was examined.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
