Histamine Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	Histamine, Polyclonal Antibody
Full Product Name	Histamine polyclonal antibody
Clonality	Polyclonal
Host	Rabbit
Species Reactivity	General
Form/Format	Liquid. Neat rabbit serum
Specificity	Recognizes histamine
Preparation and Storage	For long term storage, store at -20 degree C Avoid freeze/thaw cycles. After opening, prepare aliquots and store at -20 degree C Shipping: Shipped on Blue Ice
Source Note	Whole rabbit serum
Immunogen	Histamine conjugated to KLH
Product Categories/Family for anti-Histamine antibody	Cellular Analysis; Cell Signaling
Applications Tested/Suitable for anti-Histamine antibody	ELISA (EIA), Immunohistochemistry (IHC)
Application Notes for anti-Histamine antibody	ELISA: 1:5,000 IHC: 1:50
Related Product Information for anti-Histamine antibody	Histamine is an important mediator of allergic reactions. Normally, there is a minimal amount of Histamine circulating in the human body. An allergic reaction can occur when a substance enters the body (food, chemicals, insect bites, oils from plants). In response to the molecule, the body will then release larger quantities of histamine, which starts a cascade of events and begins an immune response. When histamine is released, part of the cascade of events is inflammation. Antihistamines work by blocking the action of histamine and the resulting inflammation, amongst other symptoms, to provide relief.
Other Notes	Small volumes of anti-Histamine antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for Histamine purchase	MBS566823 is an antibody targeting Histamine. Also known as Histamine polyclonal antibody. Reactive in General. Host: Rabbit.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for Histamine. It may not necessarily be applicable to this product.

Protein Family	Histamine H1 receptor
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.

Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
