Clivatuzumab Antibody – Human

PRODUCT OVERVIEW

Product Name	Clivatuzumab, Antibody
Full Product Name	Clivatuzumab
Host	Human
Species Reactivity	MUC1
Preparation and Storage	Powder: -20 degree C for 3 years | In solvent: -80 degree C for 1 year
Solubility	(< 1 mg/ml refers to the product slightly soluble or insoluble)
CAS Number	1622075-09-5
In_vitro	Clivatuzumab exhibits high specificity for pancreatic ductal adenocarcinoma (PDAC), showing minimal reactivity towards normal and benign non-tumorous pancreatic tissues. Although it demonstrates limited reactivity (approximately 10% of all samples) towards adenocarcinomas in certain other organs such as the stomach, colon, and lungs [1].
Related Product Information for anti-Clivatuzumab antibody	Clivatuzumab is a humanized anti-myxinomab, which can target the MUC1 epitope highly expressed on the surface of most pancreatic cancer cells, and has a good therapeutic effect on a variety of tumor cells.
Other Notes	Small volumes of anti-Clivatuzumab antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for Clivatuzumab purchase	MBS5819112 is an antibody targeting Clivatuzumab. Reactive in MUC1. Host: Human.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
