FITC-labeled ODN 2216 sodium

PRODUCT OVERVIEW

Product Name	ODN 2216 sodium, Biochemical
Full Product Name	FITC-labeled ODN 2216 sodium
Product Gene Name	ODN biochemical
Preparation and Storage	Powder: -20 degree C for 3 years | In solvent: -80 degree C for 1 year
Solubility	(< 1 mg/ml refers to the product slightly soluble or insoluble)
Related Product Information for ODN biochemical	FITC-labeled ODN 2216 (sodium), a specific agonist for human toll-like receptor 9 (TLR9), facilitates the assessment of CpG ODN cellular uptake and localization through confocal laser-scanning microscopy (excitation 495 nm, emission 520nM) or flow cytometry.
Other Notes	Small volumes of ODN biochemical vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for ODN purchase	MBS5820659 is a biochemical targeting ODN. Also known as FITC-labeled ODN 2216 sodium.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
