Perfluorooctanoic Acid

PRODUCT OVERVIEW

Product Name	Perfluorooctanoic Acid, Biochemical
Full Product Name	Perfluorooctanoic Acid
Preparation and Storage	Room Temperature
Molecular Weight	414.07
CAS Number	335-67-1
Molecular Formula	C8HF15O2
Product Categories/Family for Perfluorooctanoic Acid biochemical	Biochemicals; Biochem-Mutagenesis
Related Product Information for Perfluorooctanoic Acid biochemical	Perfluorooctanoic acid is a perfluoroalkyl isotopomeric compound. Perfluorooctanoic acid (PFOA) is one of the most commonly used perfluorinated compounds. Being a persistent environmental pollutant, it can accumulate in human tissues via various exposure routes. PFOA may interfere in a toxic fashion on the immune system, liver, development, and endocrine systems.
Other Notes	Small volumes of Perfluorooctanoic Acid biochemical vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for Perfluorooctanoic Acid purchase	MBS6077846 is a biochemical targeting Perfluorooctanoic Acid.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
