MTF1 Antibody – Mouse Monoclonal

PRODUCT OVERVIEW

Product Name	MTF1, Monoclonal Antibody
Full Product Name	MTF1 (Metal-Regulatory Transcription Factor 1, MGC23036, MTF-1, ZRF) (AP)
Product Gene Name	anti-MTF1 antibody
Product Synonym Names	Metal-Regulatory Transcription Factor 1; MGC23036; MTF-1; ZRF
Clonality	Monoclonal
Isotype	IgG2a,k
Clone Number	3G12
Host	Mouse
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with Alkaline Phosphatase (AP).
Purity/Purification	Purified
Specificity	Recognizes MTF1.
Preparation and Storage	Store product at 4 degree C. DO NOT FREEZE! Stable at 4 degree C for 12 months after receipt as an undiluted liquid. Dilute required amount only prior to immediate use. Further dilutions can be made in assay buffer. For maximum recovery of product, centrifuge the original vial prior to removing the cap.
Molecular Weight	81kDa
OMIM	600172
3D Structure	ModBase 3D Structure for Q14872
Immunogen	MTF1 (NP_005946, 41aa-140aa) partial recombinant protein with GST tag. MW of the GST tag alone is 26kD.
Immunogen Sequence	GTVYDRTTVLIEQDPGTLEDEDDDGQCGEHLPFLVGGEEGFHLIDHEAMSQGYVQHIISPDQIHLTINPGSTPMPRNIEGATLTLQSECPETKRKEVKRY
Conjugate	AP
Product Categories/Family for anti-MTF1 antibody	Antibodies; Transcription Factors
Applications Tested/Suitable for anti-MTF1 antibody	Western Blot (WB)
Application Notes for anti-MTF1 antibody	Applications are based on unconjugated antibody.
Related Product Information for anti-MTF1 antibody	This gene encodes a transcription factor that induces expression of metallothioneins and other genes involved in metal homeostasis in response to heavy metals such as cadmium, zinc, copper, and silver. The protein is a nucleocytoplasmic shuttling protein that accumulates in the nucleus upon heavy metal exposure and binds to promoters containing a metal-responsive element (MRE). [provided by RefSeq]

Other Notes	Small volumes of anti-MTF1 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for MTF1 purchase	MBS6161663 is an antibody targeting MTF1. Also known as MTF1 (Metal-Regulatory Transcription Factor 1, MGC23036, MTF-1, ZRF) (AP). Host: Mouse.

Testing Data of anti-MTF1 antibody
Detection limit for recombinant GST tagged MTF1 is approximately 0.03ng/ml as a capture antibody.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for MTF1. It may not necessarily be applicable to this product.

NCBI GI #	112790163
NCBI GeneID	4520
NCBI Accession #	NP_005946
UniProt Primary Accession #	Q14872
UniProt Related Accession #	Q14872
GenBank Nucleotide #	NM_005955
NCBI Official Full Name	metal regulatory transcription factor 1
NCBI Official Synonym Full Names	metal regulatory transcription factor 1
NCBI Official Symbol	MTF1
NCBI Official Synonym Symbols	ZRF; MTF-1
UniProt Protein Name	Metal regulatory transcription factor 1
UniProt Synonym Protein Names	MRE-binding transcription factor; Transcription factor MTF-1
Protein Family	Metal regulatory transcription factor
UniProt Gene Name	MTF1
UniProt Entry Name	MTF1_HUMAN
NCBI Protein Information	metal regulatory transcription factor 1

UniProt Comments for MTF1	MTF1: Activates the metallothionein I promoter. Binds to the metal responsive element (MRE). Protein type: Transcription factor; C2H2-type zinc finger protein Chromosomal Location of Human Ortholog: 1p33 Cellular Component: nucleoplasm; nucleus Molecular Function: DNA binding; histone acetyltransferase binding; metal ion binding; protein binding; transcription coactivator activity; transcription factor activity Biological Process: positive regulation of transcription from RNA polymerase II promoter; regulation of transcription from RNA polymerase II promoter; response to cadmium ion; response to metal ion; response to oxidative stress; transcription from RNA polymerase II promoter
Research Articles on MTF1	**1.** MTF1 heads a hierarchy of zinc sensors, and through controlling the expression of a raft of metallothioneins and other key proteins involved in controlling intracellular zinc levels (e.g. ZnT1) alters zinc buffering capacity and total cellular zinc content.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
