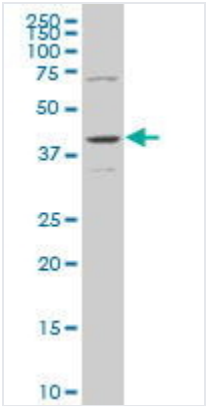

MAPK13 Antibody – Mouse Monoclonal

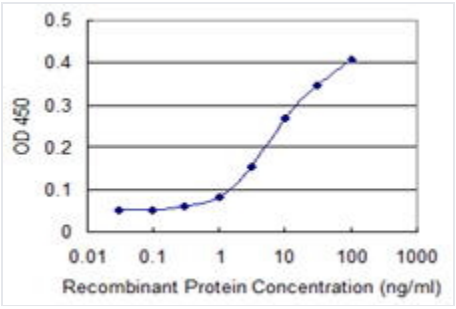

PRODUCT OVERVIEW

Product Name	MAPK13, Monoclonal Antibody
Full Product Name	MAPK13 (Mitogen-Activated Protein Kinase 13, MGC99536, PRKM13, SAPK4, p38delta) (AP)
Product Gene Name	anti-MAPK13 antibody
Product Synonym Names	Mitogen-Activated Protein Kinase 13; MGC99536; PRKM13; SAPK4; p38delta
Clonality	Monoclonal
Isotype	IgG1,k
Clone Number	1000000
Host	Mouse
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with Alkaline Phosphatase (AP).
Purity/Purification	Purified
Specificity	Recognizes MAPK13.
Preparation and Storage	Store product at 4 degree C. DO NOT FREEZE! Stable at 4 degree C for 12 months after receipt as an undiluted liquid. Dilute required amount only pri Further dilutions can be made in assay buffer. For maximum recovery of product, centrifuge the original vial prior to removing the cap.
Immunogen	MAPK13 (AAH00433, 251aa-365aa) partial recombinant protein with GST tag. MW of the GST tag alone is 26kD.
Immunogen Sequence	NDKAAKSYIQSLPQTPRKDFTQLFPRASPQAADLLEKMLELDVDRRLTAAQALTHPFFEPFRDPEEETEAQQPFDDSLEHEKLTVDEWKQHIYKEIVNFSP
Conjugate	AP
Product Categories/Family for anti-MAPK13 antibody	Antibodies; Protein Kinases
Applications Tested/Suitable for anti-MAPK13 antibody	Western Blot (WB)
Application Notes for anti-MAPK13 antibody	Applications are based on unconjugated antibody.
Related Product Information for anti-MAPK13 antibody	The protein encoded by this gene is a member of the MAP kinase family. MAP kinases act as an integration point for multiple biochemical signals, and wide variety of cellular processes such as proliferation, differentiation, transcription regulation and development. This kinase is closely related to p38 M which can be activated by proinflammatory cytokines and cellular stress. MAP kinase kinases 3, and 6 can phosphorylate and activate this kinase. Tran ATF2, and microtubule dynamics regulator stathmin have been shown to be the substrates of this kinase. [provided by RefSeq]
Other Notes	Small volumes of anti-MAPK13 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If nece centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional apply.

Searchable Terms for MAPK13 purchase	MBS6163484 is an antibody targeting MAPK13. Also known as MAPK13 (Mitogen-Activated Protein Kinase 13, MGC99536, PRKM13, SAPK4, p38delt Mouse.

Western Blot (WB) of anti-MAPK13 antibody
MAPK13 monoclonal antibody (M04), clone 1E6 Western Blot analysis of MAPK13 expression in HepG2.

Testing Data of anti-MAPK13 antibody
Detection limit for recombinant GST tagged MAPK13 is 0.3 ng/ml as a capture antibody.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for MAPK13. It may not necessarily be applicable to this product.

NCBI GI #	12653329
NCBI GeneID	5603
NCBI Accession #	AAH00433
UniProt Related Accession #	O15264
NCBI Official Full Name	Mitogen-activated protein kinase 13
NCBI Official Synonym Full Names	mitogen-activated protein kinase 13
NCBI Official Symbol	MAPK13
NCBI Official Synonym Symbols	SAPK4; PRKM13; MAPK 13; MAPK-13; p38delta
NCBI Protein Information	mitogen-activated protein kinase 13
NCBI Summary for MAPK13	This gene encodes a member of the mitogen-activated protein (MAP) kinase family. MAP kinases act as an integration point for multiple biochemical signals, and are involved in a wide variety of cellular processes such as proliferation, differentiation, transcription regulation and development. The encoded protein is a p38 MAP kinase and is activated by proinflammatory cytokines and cellular stress. Substrates of the encoded protein include the transcription factor ATF2 and the microtubule dynamics regulator stathmin. Alternatively spliced transcript variants have been observed for this gene. [provided by RefSeq, Jul 2012]
Research Articles on MAPK13	**1.** p38delta promotes micro-aggregate transport by phosphorylating SQSTM1, a major scaffold protein that assembles soluble ubiquitylated proteins into micro-aggregates.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.

Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
