POLK Antibody – Mouse Monoclonal

PRODUCT OVERVIEW

Product Name	POLK, Monoclonal Antibody
Full Product Name	POLK (Polymerase (DNA Directed) kappa, DINB1, DINP) (HRP)
Product Gene Name	anti-POLK antibody
Product Synonym Names	Polymerase (DNA Directed) kappa; DINB1; DINP
Clonality	Monoclonal
Isotype	IgG1,k
Clone Number	4F12
Host	Mouse
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with horseradish peroxidase (HRP).
Purity/Purification	Purified
Specificity	Recognizes POLK.
Preparation and Storage	Store product at 4 degree C if to be used immediately within two weeks. For long-term storage, aliquot to avoid repeated freezing and thawing and stor
Immunogen	POLK (AAH50718, 1aa-472aa) full-length recombinant protein with GST tag. MW of the GST tag alone is 26kD.
Immunogen Sequence	MDSTKEKCDSYKDDLLLRMGLNDNKAGMEGLDKEKINKIIMEATKGSRFYGNELKKEKQVNQRIENMMQQKAQITSQQLRKAQLQVDRFAMELEQSRNL
Conjugate	HRP
Product Categories/Family for anti-POLK antibody	Antibodies; Enzymes; Polymerase
Applications Tested/Suitable for anti-POLK antibody	ELISA (EIA), Immunoprecipitation (IP), Western Blot (WB)
Application Notes for anti-POLK antibody	Applications are based on unconjugated antibody.
Related Product Information for anti-POLK antibody	MBS6181868 is an antibody targeting POLK. Also known as POLK (Polymerase (DNA Directed) kappa, DINB1, DINP) (HRP). Host: Mouse.
Other Notes	Small volumes of anti-POLK antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necess

Immunoprecipitation (IP) of anti-POLK antibody
Immunoprecipitation of POLK transfected lysate using anti-POLK monoclonal antibody and Protein A Magnetic Bead (U0007), and immunoblotted with POLK MaxPab rabbit polyclonal antibody.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for POLK. It may not necessarily be applicable to this product.

NCBI GI #	30048187
NCBI GeneID	51426
NCBI Accession #	AAH50718
UniProt Related Accession #	Q9UBT6
NCBI Official Full Name	POLK protein
NCBI Official Synonym Full Names	DNA polymerase kappa
NCBI Official Symbol	POLK
NCBI Official Synonym Symbols	DINP; POLQ; DINB1
Protein Family	ATP-binding transport protein
NCBI Protein Information	DNA polymerase kappa
NCBI Summary for POLK	This gene encodes a member of the DNA polymerase type-Y family of proteins. The encoded protein is a specialized DNA polymerase that catalyzes translesion DNA synthesis, which allows DNA replication in the presence of DNA lesions. Human cell lines lacking a functional copy of this gene exhibit impaired genome integrity and enhanced susceptibility to oxidative damage. Mutations in this gene that impair enzyme activity may be associated with prostate cancer in human patients. [provided by RefSeq, Sep 2016]
Research Articles on POLK	**1.** pol kappa has roles both in maintaining and compromising genomic integrity. The expression of pol kappa is altered in several different cancer types, which can lead to genome instability. In addition, many cancer-associated single-nucleotide polymorphisms have been reported in the POLK gene, some of which are associated with poor survival and altered chemotherapy response
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.

Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
