ATG13 Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	ATG13, Polyclonal Antibody
Full Product Name	ATG13, ID (S355.) (ATG13, KIAA0652, Autophagy-related protein 13) (Biotin)
Product Gene Name	anti-ATG13 antibody
Product Synonym Names	ATG13; KIAA0652; Autophagy-related protein 13
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with Biotin.
Purity/Purification	Purified by Protein A Affinity Chromatography.
Preparation and Storage	Store product at 4 degree C if to be used immediately within two weeks. For long-term storage, aliquot to avoid repeated freezing and thawing and store at -20 degree C. Aliquots are stable at -20 degree C for 12 months after receipt. Dilute required amount only prior to immediate use. Further dilutions can be made in assay buffer. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap.
Molecular Weight	60,155 Da
OMIM	615088
3D Structure	ModBase 3D Structure for O75143
Immunogen	ATG13 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 333-362 amino acids from the Central region of human ATG13.
Conjugate	Biotin
Note	Preservative Free
Product Categories/Family for anti-ATG13 antibody	Antibodies; Autophagy
Applications Tested/Suitable for anti-ATG13 antibody	Western Blot (WB), ELISA (EIA)
Application Notes for anti-ATG13 antibody	WB: 1:100-500 ELISA: 1:1,000 Applications are based on unconjugated antibody.
Related Product Information for anti-ATG13 antibody	Autophagy factor required for autophagosome formation. Target of the TOR kinase signaling pathway that regulates autophagy through the control of the phosphorylation status of ATG13 and ULK1, and the regulation of the ATG13-ULK1-RB1CC1 complex.
Product References and Citations for anti-ATG13 antibody	Ferreira, R.C., et al. Nat. Genet. 42(9):777-780(2010). Hosokawa, N., et al. Autophagy 5(7):973-979(2009). Mercer, C.A., et al. Autophagy 5(5):649-662(2009). Ganley, I.G., et al. J. Biol. Chem. 284(18):12297-12305(2009). Chan, E.Y., et al. Mol. Cell. Biol. 29(1):157-171(2009).
Other Notes	Small volumes of anti-ATG13 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

Searchable Terms for ATG13 purchase	MBS6275965 is an antibody targeting ATG13. Also known as ATG13, ID (S355.) (ATG13, KIAA0652, Autophagy-related protein 13) (Biotin). Reactive in Human. Host: Rabbit.

Western Blot (WB) of anti-ATG13 antibody
ATG13 Antibody (Center S355.) western blot analysis in MCF-7 cell line lysates (35ug/lane).This demonstrates the ATG13 antibody detected the ATG13 protein (arrow).

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for ATG13. It may not necessarily be applicable to this product.

NCBI GI #	218082953
NCBI GeneID	9776
NCBI Accession #	NP_001136145.1
UniProt Primary Accession #	O75143
UniProt Secondary Accession #	Q53EN6; Q9BRL3; Q9H8B0; B4DFI4; D3DQQ1; D3DQQ2; E9PQZ8
UniProt Related Accession #	O75143
GenBank Nucleotide #	NM_001142673.2
NCBI Official Full Name	autophagy-related protein 13 isoform 1
NCBI Official Synonym Full Names	autophagy related 13
NCBI Official Symbol	ATG13
NCBI Official Synonym Symbols	KIAA0652; PARATARG8
UniProt Protein Name	Autophagy-related protein 13
Protein Family	Autophagy protein
UniProt Gene Name	ATG13
UniProt Synonym Gene Names	KIAA0652
UniProt Entry Name	ATG13_HUMAN
NCBI Protein Information	autophagy-related protein 13

UniProt Comments for ATG13	ATG13: an autophagy factor required for autophagosome formation. Target of the TOR kinase signaling pathway that regulates autophagy through the control of the phosphorylation status of ATG13 and ULK1, and the regulation of the ATG13-ULK1-RB1CC1 complex. Under starvation conditions, is localized to puncate structures primarily representing the isolation membrane; the isolation membrane sequesters a portion of the cytoplasm resulting in autophagosome formation. Phosphorylated by ULK1 and ULK2. Phosphorylation status depends on nutrient-rich conditions; dephosphorylated during starvation or following treatment with rapamycin. Part of a complex consisting of ATG13, ULK1 and RB1CC1. Interacts with ATG101. Interacts with ULK1 and -2 via C-terminus. Three isoforms of the human protein are produced by alternative splicing. Protein type: Vesicle; Autophagy Chromosomal Location of Human Ortholog: 11p11.2 Cellular Component: mitochondrion; cytosol Molecular Function: protein binding; protein kinase binding Biological Process: autophagic vacuole formation
Research Articles on ATG13	**1.** Specific affinity of the LC3 isoforms to the Atg13 LC3-interacting region is required for proper autophagosome formation.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
