ATXN7 Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	ATXN7, Polyclonal Antibody
Full Product Name	ATXN7, ID (ATXN7, SCA7, Ataxin-7, Spinocerebellar ataxia type 7 protein) (FITC)
Product Gene Name	anti-ATXN7 antibody
Product Synonym Names	ATXN7; SCA7; Ataxin-7; Spinocerebellar ataxia type 7 protein
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with Fluorescein Isothiocyanate (FITC).
Purity/Purification	Purified by Protein A Affinity Chromatography.
Preparation and Storage	Store product at 4 degree C if to be used immediately within two weeks. For long-term storage, aliquot to avoid repeated freezing and thawing and store at -20 degree C. Aliquots are stable at -20 degree C for 12 months after receipt. Dilute required amount only prior to immediate use. Further dilutions can be made in assay buffer. Caution: FITC conjugates are sensitive to light. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap.
Molecular Weight	95,451 Da
Chromosome Location	Chromosome: 3; NC_000003.11 (63850233..63989138). Location: 3p21.1-p12
OMIM	164500
3D Structure	ModBase 3D Structure for O15265
Immunogen	ATXN7 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 353-381 amino acids from the Central region of human ATXN7.
Conjugate	FITC
Note	Preservative Free
Special Handling	Light sensitive
Product Categories/Family for anti-ATXN7 antibody	Antibodies; Ataxin
Applications Tested/Suitable for anti-ATXN7 antibody	Western Blot (WB), FLISA
Application Notes for anti-ATXN7 antibody	WB: 1:100-500 FLISA: 1:1,000 Applications are based on unconjugated antibody.
Related Product Information for anti-ATXN7 antibody	MBS6276824 is an antibody targeting ATXN7. Also known as ATXN7, ID (ATXN7, SCA7, Ataxin-7, Spinocerebellar ataxia type 7 protein) (FITC). Reactive in Human. Host: Rabbit.
Product References and Citations for anti-ATXN7 antibody	Bonnet, J., et al. EMBO Rep. 11(8):612-618(2010). Han, Y., et al. Neurol India 58(4):622-626(2010). Chou, A.H., et al. Neurochem. Int. 56(2):329-339(2010). Mookerjee, S., et al. J. Neurosci. 29(48):15134-15144(2009). Freund, A.A., et al. Arq Neuropsiquiatr 67(4):1124-1132(2009).

Other Notes	Small volumes of anti-ATXN7 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

Western Blot (WB) of anti-ATXN7 antibody
ATXN7 Antibody (Center) western blot analysis in CEM cell line lysates (35ug/lane).This demonstrates the ATXN7 antibody detected the ATXN7 protein (arrow).

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for ATXN7. It may not necessarily be applicable to this product.

NCBI GI #	4506797
NCBI GeneID	6314
NCBI Accession #	NP_000324.1
NCBI Related Accession #	NP_001170858.1
UniProt Primary Accession #	O15265
UniProt Secondary Accession #	O75328; O75329; Q9Y6P8
UniProt Related Accession #	O15265
GenBank Nucleotide #	NM_000333.3
NCBI Official Full Name	ataxin-7 isoform a
NCBI Official Synonym Full Names	ataxin 7
NCBI Official Symbol	ATXN7
NCBI Official Synonym Symbols	SCA7; OPCA3; ADCAII
UniProt Protein Name	Ataxin-7
UniProt Synonym Protein Names	Spinocerebellar ataxia type 7 protein
Protein Family	Ataxin
UniProt Gene Name	ATXN7
UniProt Synonym Gene Names	SCA7
UniProt Entry Name	ATX7_HUMAN
NCBI Protein Information	ataxin-7; spinocerebellar ataxia type 7 protein

UniProt Comments for ATXN7	ataxin-7: Acts as component of the STAGA transcription coactivator-HAT complex. Mediates the interaction of STAGA complex with the CRX and is involved in CRX-dependent gene activation. Necessary for microtubule cytoskeleton stabilization. Defects in ATXN7 are the cause of spinocerebellar ataxia type 7 (SCA7); also known as olivopontocerebellar atrophy III (OPCA III or OPCA3) or olivopontocerebellar atrophy with retinal degeneration. Spinocerebellar ataxia is a clinically and genetically heterogeneous group of cerebellar disorders. Patients show progressive incoordination of gait and often poor coordination of hands, speech and eye movements, due to degeneration of the cerebellum with variable involvement of the brainstem and spinal cord. SCA7 belongs to the autosomal dominant cerebellar ataxias type II (ADCA II) which are characterized by cerebellar ataxia with retinal degeneration and pigmentary macular dystrophy. Belongs to the ataxin-7 family. 2 isoforms of the human protein are produced by alternative splicing. Protein type: Nucleolus; Transcription regulation Chromosomal Location of Human Ortholog: 3p21.1-p12 Cellular Component: nucleoplasm; microtubule cytoskeleton; nuclear matrix; cytoplasm; nucleolus; nucleus Molecular Function: protein binding; chromatin binding Biological Process: establishment and/or maintenance of chromatin architecture; visual perception; transcription, DNA-dependent; negative regulation of insulin-like growth factor receptor signaling pathway; negative regulation of phosphorylation; positive regulation of transcription from RNA polymerase II promoter; microtubule cytoskeleton organization and biogenesis; nuclear organization and biogenesis; histone deubiquitination Disease: Spinocerebellar Ataxia 7
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
