CDH3 Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	CDH3, Polyclonal Antibody
Full Product Name	CDH3, NT (CDH3, CDHP, Cadherin-3, Placental cadherin) (MaxLight 405)
Product Gene Name	anti-CDH3 antibody
Product Synonym Names	CDH3; CDHP; Cadherin-3; Placental cadherin
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human, Mouse
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with MaxLight405.
Purity/Purification	Purified by Protein A Affinity Chromatography.
Preparation and Storage	Store product at 4 degree C in the dark. DO NOT FREEZE! Stable at 4 degree C for 12 months after receipt as an undiluted liquid. Dilute required amount only prior to immediate use. Further dilutions can be made in assay buffer. Caution: MaxLight405 conjugates are sensitive to light. For maximum recovery of product, centrifuge the original vial prior to removing the cap.
Molecular Weight	91,418 Da
Chromosome Location	Chromosome: 16; NC_000016.9 (68678151..68732957). Location: 16q22.1
OMIM	114021
3D Structure	ModBase 3D Structure for P22223
Immunogen	CDH3 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 121~150 amino acids from the N-terminal region of human CDH3.
Conjugate	MaxLight405
Note	Preservative Free
Product Categories/Family for anti-CDH3 antibody	Antibodies; Cadherin
Applications Tested/Suitable for anti-CDH3 antibody	Flow Cytometry (FC/FACS), FLISA, Immunohistochemistry (IHC), Western Blot (WB)
Application Notes for anti-CDH3 antibody	FC/FACS: 1:10-50 FLISA: 1:1,000 IHC: 1:10-50 Applications are based on unconjugated antibody.
Related Product Information for anti-CDH3 antibody	CDH3 is a classical cadherin from the cadherin superfamily. It is a calcium-dependent cell-cell adhesion glycoprotein comprised of five extracellular cadherin repeats, a transmembrane region and a highly conserved cytoplasmic tail. Aberrant expression of this protein is observed in cervical adenocarcinomas. Mutations in the gene encoding CDH3 have been associated with congential hypotrichosis with juvenile macular dystrophy.
Product References and Citations for anti-CDH3 antibody	Indelman, M., Clin. Exp. Dermatol. 32 (2), 191-196 (2007). Paredes, J., Clin. Cancer Res. 11 (16), 5869-5877 (2005).

Other Notes	Small volumes of anti-CDH3 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for CDH3 purchase	MBS6284187 is an antibody targeting CDH3. Also known as CDH3, NT (CDH3, CDHP, Cadherin-3, Placental cadherin) (MaxLight 405). Reactive in Human, Mouse. Host: Rabbit.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for CDH3. It may not necessarily be applicable to this product.

NCBI GI #	14589891
NCBI GeneID	1001
NCBI Accession #	NP_001784.2
UniProt Primary Accession #	P22223
UniProt Secondary Accession #	Q05DI6; B2R6F4
UniProt Related Accession #	P22223
GenBank Nucleotide #	NM_001793.4
NCBI Official Full Name	cadherin-3 preproprotein
NCBI Official Synonym Full Names	cadherin 3, type 1, P-cadherin (placental)
NCBI Official Symbol	CDH3
NCBI Official Synonym Symbols	CDHP; HJMD; PCAD
UniProt Protein Name	Cadherin-3
UniProt Synonym Protein Names	Placental cadherin
UniProt Gene Name	CDH3
UniProt Synonym Gene Names	CDHP; P-cadherin
UniProt Entry Name	CADH3_HUMAN
NCBI Protein Information	cadherin-3; calcium-dependent adhesion protein, placental
NCBI Summary for CDH3	This gene is a classical cadherin from the cadherin superfamily. The encoded protein is a calcium-dependent cell-cell adhesion glycoprotein comprised of five extracellular cadherin repeats, a transmembrane region and a highly conserved cytoplasmic tail. This gene is located in a six-cadherin cluster in a region on the long arm of chromosome 16 that is involved in loss of heterozygosity events in breast and prostate cancer. In addition, aberrant expression of this protein is observed in cervical adenocarcinomas. Mutations in this gene have been associated with congential hypotrichosis with juvenile macular dystrophy. [provided by RefSeq, Jul 2008]

UniProt Comments for CDH3	CDH3: Cadherins are calcium dependent cell adhesion proteins. They preferentially interact with themselves in a homophilic manner in connecting cells; cadherins may thus contribute to the sorting of heterogeneous cell types. Interacts with CDCP1. Expressed in some normal epithelial tissues and in some carcinoma cell lines. 2 isoforms of the human protein are produced by alternative splicing. Protein type: Cell adhesion; Motility/polarity/chemotaxis; Membrane protein, integral Chromosomal Location of Human Ortholog: 16q22.1 Cellular Component: cell-cell adherens junction; cytoplasm; integral to membrane; plasma membrane Molecular Function: calcium ion binding Biological Process: response to drug; positive regulation of insulin-like growth factor receptor signaling pathway; intercellular junction assembly and maintenance; wound healing; positive regulation of melanin biosynthetic process; Wnt receptor signaling pathway through beta-catenin; retinal homeostasis; negative regulation of transforming growth factor-beta2 production; hair cycle process; cell-cell adhesion; positive regulation of monophenol monooxygenase activity; negative regulation of catagen; visual perception; keratinization; cell adhesion; homophilic cell adhesion Disease: Ectodermal Dysplasia, Ectrodactyly, And Macular Dystrophy Syndrome; Hypotrichosis, Congenital, With Juvenile Macular Dystrophy
Research Articles on CDH3	**1.** LA carcinomas and carcinomas negative for basal markers were more often negative for epithelial cell adhesion molecule (Ep-CAM) and P-cadherin
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
