Dnmt3L Antibody – Rabbit Polyclonal

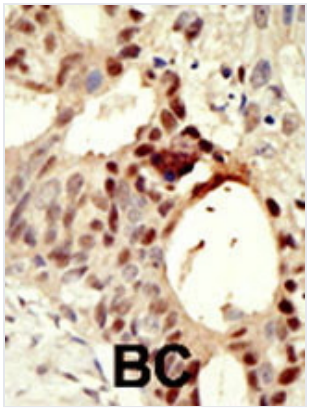

PRODUCT OVERVIEW

Product Name	Dnmt3L, Polyclonal Antibody
Full Product Name	Dnmt3L, CT (DNMT3L, DNA (cytosine-5)-methyltransferase 3-like) (APC)
Product Gene Name	anti-Dnmt3L antibody
Product Synonym Names	DNMT3L; DNA (cytosine-5)-methyltransferase 3-like
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with Allophycocyanin (APC).
Purity/Purification	Purified by Protein G Affinity Chromatography.
Preparation and Storage	Store product at 4 degree C in the dark. DO NOT FREEZE! Stable at 4 degree C for 12 months after receipt as an undiluted liquid. Dilute required amount only prior to immediate use. Further dilutions can be made in assay buffer. Caution: APC conjugates are sensitive to light. For maximum recovery of product, centrifuge the original vial prior to removing the cap.
Molecular Weight	386
OMIM	606588
3D Structure	ModBase 3D Structure for Q9UJW3
Immunogen	Dnmt3L antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 388~417 amino acids from the C-terminal region of human Dnmt3L.
Conjugate	APC
Note	Preservative Free
Special Handling	Light sensitive
Product Categories/Family for anti-Dnmt3L antibody	Antibodies; Enzymes; Methyltransferase
Applications Tested/Suitable for anti-Dnmt3L antibody	Immunohistochemistry (IHC), FLISA, Western Blot (WB)
Application Notes for anti-Dnmt3L antibody	IHC: 1:50-100 FLISA: 1:1,000 Applications are based on unconjugated antibody.
Related Product Information for anti-Dnmt3L antibody	CpG methylation is an epigenetic modification that is important for embryonic development, imprinting, and X-chromosome inactivation. Studies in mice have demonstrated that DNA methylation is required for mammalian development. This gene encodes a nuclear protein with similarity to DNA methyltransferases. This protein is not thought to function as a DNA methyltransferase as it does not contain the amino acid residues necessary for methyltransferase activity. However, this protein does stimulate de novo methylation by DNA cytosine methyltransferase 3 alpha and it is thought to be required for the establishment of maternal genomic imprints. This protein also mediates transcriptional repression through interaction with histone deacetylase 1. Alternative splicing results in two transcript variants. An additional splice variant has been described but its biological validity has not been determined.

Product References and Citations for anti-Dnmt3L antibody	Chedin, F., et al., Proc. Natl. Acad. Sci. U.S.A. 99(26):16916-16921 (2002). Kierszenbaum, A.L., Mol. Reprod. Dev. 63(3):269-272 (2002). Deplus, R., et al., Nucleic Acids Res. 30(17):3831-3838 (2002). Hata, K., et al., Development 129(8):1983-1993 (2002). Burgers, W.A., et al., Trends Genet. 18(6):275-277 (2002).
Other Notes	Small volumes of anti-Dnmt3L antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for Dnmt3L purchase	MBS6293126 is an antibody targeting Dnmt3L. Also known as Dnmt3L, CT (DNMT3L, DNA (cytosine-5)-methyltransferase 3-like) (APC). Reactive in Human. Host: Rabbit.

Western Blot (WB) of anti-Dnmt3L antibody
Dnmt3L-R322 western blot analysis in HL-60 cell line lysates (35ug/lane).This demonstrates the DNMT3L antibody detected the DNMT3L protein (arrow).

Immunohistochemistry (IHC) of anti-Dnmt3L antibody
Formalin-fixed and paraffin-embedded human cancer tissue reacted with the primary antibody, which was peroxidase-conjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry; clinical relevance has not been evaluated. BC = breast carcinoma; HC = hepatocarcinoma.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for Dnmt3L. It may not necessarily be applicable to this product.

NCBI GI #	334302913
NCBI GeneID	29947
NCBI Accession #	Q9UJW3.3
UniProt Primary Accession #	Q9UJW3
UniProt Secondary Accession #	Q9BUJ4; E9PB42
UniProt Related Accession #	Q9UJW3
NCBI Official Full Name	DNA (cytosine-5)-methyltransferase 3-like
NCBI Official Synonym Full Names	DNA (cytosine-5-)-methyltransferase 3-like
NCBI Official Symbol	DNMT3L
UniProt Protein Name	DNA (cytosine-5)-methyltransferase 3-like
Protein Family	DNA (cytosine-5)-methyltransferase
UniProt Gene Name	DNMT3L
UniProt Entry Name	DNM3L_HUMAN
NCBI Protein Information	DNA (cytosine-5)-methyltransferase 3-like; DNA (cytosine-5)-methyltransferase 3-like; cytosine-5-methyltransferase 3-like protein; human cytosine-5-methyltransferase 3-like protein

Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
