ECT2 Antibody – Rabbit Polyclonal

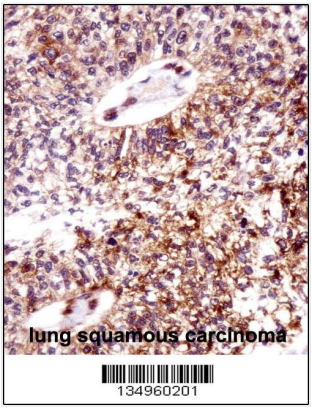

PRODUCT OVERVIEW

Product Name	ECT2, Polyclonal Antibody
Full Product Name	ECT2, ID (ECT2, Protein ECT2, Epithelial cell-transforming sequence 2 oncogene) (Biotin)
Product Gene Name	anti-ECT2 antibody
Product Synonym Names	ECT2; Protein ECT2; Epithelial cell-transforming sequence 2 oncogene
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with Biotin.
Purity/Purification	Purified by Protein A Affinity Chromatography.
Preparation and Storage	Store product at 4 degree C if to be used immediately within two weeks. For long-term storage, aliquot to avoid repeated freezing and thawing and store at -20 degree C. Aliquots are stable at -20 degree C for 12 months after receipt. Dilute required amount only prior to immediate use. Further dilutions can be made in assay buffer. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap.
Molecular Weight	100,051 Da
OMIM	600586
3D Structure	ModBase 3D Structure for Q9H8V3
Immunogen	ECT2 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 565-594 amino acids from the Central region of human ECT2.
Conjugate	Biotin
Note	Preservative Free
Product Categories/Family for anti-ECT2 antibody	Antibodies; Proteins
Applications Tested/Suitable for anti-ECT2 antibody	Immunohistochemistry (IHC), ELISA (EIA), Western Blot (WB)
Application Notes for anti-ECT2 antibody	IHC: 1:10-50 ELISA: 1:1,000 WB: 1:100-500 Applications are based on unconjugated antibody.
Related Product Information for anti-ECT2 antibody	The protein encoded by this gene is a transforming protein that is related to Rho-specific exchange factors and yeast cell cycle regulators. The expression of this gene is elevated with the onset of DNA synthesis and remains elevated during G2 and M phases. In situ hybridization analysis showed that expression is at a high level in cells undergoing mitosis in regenerating liver. Thus, this protein is expressed in a cell cycle-dependent manner during liver regeneration, and is thought to have an important role in the regulation of cytokinesis.
Product References and Citations for anti-ECT2 antibody	Justilien, V., et al. Oncogene 28(41):3597-3607(2009). Burkard, M.E., et al. PLoS Biol. 7 (5), E1000111 (2009): Wolfe, B.A., et al. Other Notes	Small volumes of anti-ECT2 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for ECT2 purchase	MBS6294293 is an antibody targeting ECT2. Also known as ECT2, ID (ECT2, Protein ECT2, Epithelial cell-transforming sequence 2 oncogene) (Biotin). Reactive in Human. Host: Rabbit.

Western Blot (WB) of anti-ECT2 antibody
ECT2 Antibody (Center) western blot analysis in 293 cell line lysates (35ug/lane).This demonstrates the ECT2 antibody detected the ECT2 protein (arrow).

Immunohistochemistry (IHC) of anti-ECT2 antibody
ECT2 Antibody (Center) (AP14755c)immunohistochemistry analysis in formalin fixed and paraffin embedded human lung squamous carcinoma followed by peroxidase conjugation of the secondary antibody and DAB staining.This data demonstrates the use of ECT2 Antibody (Center) for immunohistochemistry. Clinical relevance has not been evaluated.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for ECT2. It may not necessarily be applicable to this product.

NCBI GI #	21735572
NCBI GeneID	1894
NCBI Accession #	NP_060568.3
UniProt Primary Accession #	Q9H8V3
UniProt Secondary Accession #	Q0MT80; Q2M269; Q6U836; Q9NSV8; Q9NVW9
UniProt Related Accession #	Q9H8V3
GenBank Nucleotide #	NM_018098.5
NCBI Official Full Name	protein ECT2 isoform b
NCBI Official Synonym Full Names	epithelial cell transforming 2
NCBI Official Symbol	ECT2
NCBI Official Synonym Symbols	ARHGEF31
UniProt Protein Name	Protein ECT2
UniProt Synonym Protein Names	Epithelial cell-transforming sequence 2 oncogene
Protein Family	Protein
UniProt Gene Name	ECT2
UniProt Entry Name	ECT2_HUMAN
NCBI Protein Information	protein ECT2

NCBI Summary for ECT2	The protein encoded by this gene is a guanine nucleotide exchange factor and transforming protein that is related to Rho-specific exchange factors and yeast cell cycle regulators. The expression of this gene is elevated with the onset of DNA synthesis and remains elevated during G2 and M phases. In situ hybridization analysis showed that expression is at a high level in cells undergoing mitosis in regenerating liver. Thus, this protein is expressed in a cell cycle-dependent manner during liver regeneration, and is thought to have an important role in the regulation of cytokinesis. Several transcript variants encoding two different isoforms have been found for this gene. [provided by RefSeq, Apr 2012]
Research Articles on ECT2	**1.** Colorectal cancer patients with high expression levels of ECT2 had shorter overall survival.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
