KLK10 Antibody – Rabbit Polyclonal

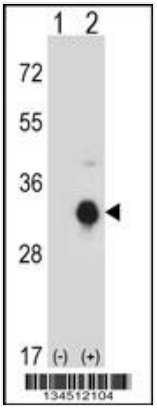

PRODUCT OVERVIEW

Product Name	KLK10, Polyclonal Antibody
Full Product Name	KLK10, NT (KLK10, NES1, PRSSL1, Kallikrein-10, Normal epithelial cell-specific 1, Protease serine-like 1) (Biotin)
Product Gene Name	anti-KLK10 antibody
Product Synonym Names	KLK10; NES1; PRSSL1; Kallikrein-10; Normal epithelial cell-specific 1; Protease serine-like 1
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with Biotin.
Purity/Purification	Purified by Protein A Affinity Chromatography.
Preparation and Storage	Store product at 4 degree C if to be used immediately within two weeks. For long-term storage, aliquot to avoid repeated freezing and thawing and store at -20 degree C. Aliquots are stable at -20 degree C for 12 months after receipt. Dilute required amount only prior to immediate use. Further dilutions can be made in assay buffer. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap.
OMIM	602673
3D Structure	ModBase 3D Structure for O43240
Immunogen	KLK10 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 21-51 amino acids from the N-terminal region of human KLK10.
Conjugate	Biotin
Note	Preservative Free
Product Categories/Family for anti-KLK10 antibody	Antibodies; Kallikrein
Applications Tested/Suitable for anti-KLK10 antibody	Western Blot (WB), ELISA (EIA)
Application Notes for anti-KLK10 antibody	WB: 1:100-500 ELISA: 1:1,000 Applications are based on unconjugated antibody.
Related Product Information for anti-KLK10 antibody	Kallikreins are a subgroup of serine proteases having diverse physiological functions. Growing evidence suggests that many kallikreins are implicated in carcinogenesis and some have potential as novel cancer and other disease biomarkers. This gene is one of the fifteen kallikrein subfamily members located in a cluster on chromosome 19. Its encoded protein is secreted and may play a role in suppression of tumorigenesis in breast and prostate cancers. Alternate splicing of this gene results in multiple transcript variants encoding the same protein. [provided by RefSeq].
Product References and Citations for anti-KLK10 antibody	Batra, J., et al. Int. J. Gynecol. Cancer 20(4):529-536(2010). Klein, R.J., et al. Cancer Prev Res (Phila) 3(5):611-619(2010). Papageorgis, P., et al. Cancer Res. 70(3):968-978(2010). Lu, C.Y., et al. Genes Chromosomes Cancer 48(12):1057-1068(2009). Sardana, G., et al. Clin. Biochem. 42 (13-14), 1483-1486 (2009).
Other Notes	Small volumes of anti-KLK10 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

Searchable Terms for KLK10 purchase	MBS6314262 is an antibody targeting KLK10. Also known as KLK10, NT (KLK10, NES1, PRSSL1, Kallikrein-10, Normal epithelial cell-specific 1, Protease serine-like 1) (Biotin). Reactive in Human. Host: Rabbit.

Western Blot (WB) of anti-KLK10 antibody
KLK10 Antibody (N-term) western blot analysis in HepG2 cell line lysates (35ug/lane).This demonstrates the KLK10 antibody detected the KLK10 protein (arrow).

Western Blot (WB) of anti-KLK10 antibody
Western blot analysis of KLK10 (arrow) using rabbit polyclonal KLK10 Antibody (N-term). 293 cell lysates (2 ug/lane) either nontransfected (Lane 1) or transiently transfected (Lane 2) with the KLK10 gene.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for KLK10. It may not necessarily be applicable to this product.

NCBI GI #	22208982
NCBI GeneID	5655
NCBI Accession #	NP_002767.2
UniProt Primary Accession #	O43240
UniProt Related Accession #	O43240
GenBank Nucleotide #	NP_002767.2
NCBI Official Full Name	kallikrein-10 preproprotein
NCBI Official Synonym Full Names	kallikrein related peptidase 10
NCBI Official Symbol	KLK10
NCBI Official Synonym Symbols	NES1; PRSSL1
UniProt Protein Name	Kallikrein-10
UniProt Synonym Protein Names	Normal epithelial cell-specific 1; Protease serine-like 1
Protein Family	Glandular kallikrein
UniProt Gene Name	KLK10
UniProt Synonym Gene Names	NES1; PRSSL1
UniProt Entry Name	KLK10_HUMAN
NCBI Protein Information	kallikrein-10
NCBI Summary for KLK10	Kallikreins are a subgroup of serine proteases having diverse physiological functions. Growing evidence suggests that many kallikreins are implicated in carcinogenesis and some have potential as novel cancer and other disease biomarkers. This gene is one of the fifteen kallikrein subfamily members located in a cluster on chromosome 19. Its encoded protein is secreted and may play a role in suppression of tumorigenesis in breast and prostate cancers. Alternate splicing of this gene results in multiple transcript variants encoding the same protein. [provided by RefSeq, Jul 2008]

UniProt Comments for KLK10	KLK10: Has a tumor-suppressor role for NES1 in breast and prostate cancer. Belongs to the peptidase S1 family. Kallikrein subfamily. Protein type: Tumor suppressor; Secreted; Secreted, signal peptide; EC 3.4.21.-; Protease Chromosomal Location of Human Ortholog: 19q13 Cellular Component: extracellular region Molecular Function: serine-type peptidase activity; serine-type endopeptidase activity Biological Process: proteolysis; cell cycle
Research Articles on KLK10	**1.** findings show that KLK10 promotes trastuzumab resistance, at least in part, through the PI3K/AKT signaling pathway, suggesting that KLK10 is a potentially target to overcome trastuzumab resistance, and the combination might overcome trastuzumab resistance in KLK10-overexpressed gastric cancer patients.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
