MARCH1 Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	MARCH1, Polyclonal Antibody
Full Product Name	MARCH1, ID (MARCH1, RNF171, E3 ubiquitin-protein ligase MARCH1, Membrane-associated RING finger protein 1, Membrane-associated RING-CH protein I, RING finger protein 171) (Biotin)
Product Gene Name	anti-MARCH1 antibody
Product Synonym Names	MARCH1; RNF171; E3 ubiquitin-protein ligase MARCH1; Membrane-associated RING finger protein 1; Membrane-associated RING-CH protein I; RING finger protein 171
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Mouse
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with Biotin.
Purity/Purification	Purified by Protein A Affinity Chromatography.
Preparation and Storage	Store product at 4 degree C if to be used immediately within two weeks. For long-term storage, aliquot to avoid repeated freezing and thawing and store at -20 degree C. Aliquots are stable at -20 degree C for 12 months after receipt. Dilute required amount only prior to immediate use. Further dilutions can be made in assay buffer. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap.
Molecular Weight	30,873 Da
OMIM	613331
3D Structure	ModBase 3D Structure for Q8TCQ1
Immunogen	MARCH1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 145-174 amino acids from the Central region of human MARCH1.
Conjugate	Biotin
Note	Preservative Free
Product Categories/Family for anti-MARCH1 antibody	Antibodies; Ubiquitin Ligases
Applications Tested/Suitable for anti-MARCH1 antibody	Western Blot (WB), ELISA (EIA)
Application Notes for anti-MARCH1 antibody	WB: 1:100-500 ELISA: 1:1,000 Applications are based on unconjugated antibody.
Related Product Information for anti-MARCH1 antibody	MARCH1 is a member of the MARCH family of membrane-bound E3 ubiquitin ligases (EC 6.3.2.19). MARCH proteins add ubiquitin (see MIM 191339) to target lysines in substrate proteins, thereby signaling their vesicular transport between membrane compartments. MARCH1 downregulates the surface expression of major histocompatibility complex (MHC) class II molecules (see MIM 142880) and other glycoproteins by directing them to the late endosomal/lysosomal compartment (Bartee et al., 2004 [PubMed 14722266]; Thibodeau et al., 2008 [PubMed 18389477]; De Gassart et al., 2008 [PubMed 18305173]).
Product References and Citations for anti-MARCH1 antibody	Rose, J.E., et al. Mol. Med. 16 (7-8), 247-253 (2010): Thibodeau, J., et al. Eur. J. Immunol. 38(5):1225-1230(2008). De Gassart, A., et al. Proc. Natl. Acad. Sci. U.S.A. 105(9):3491-3496(2008). Bartee, E., et al. J. Virol. 78(3):1109-1120(2004).

Other Notes	Small volumes of anti-MARCH1 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for MARCH1 purchase	MBS6318926 is an antibody targeting MARCH1. Also known as MARCH1, ID (MARCH1, RNF171, E3 ubiquitin-protein ligase MARCH1, Membrane-associated RING finger protein 1, Membrane-associated RING-CH protein I, RING finger protein 171) (Biotin). Reactive in Mouse. Host: Rabbit.

MARCH1 Antibody (Center) western blot analysis in mouse heart tissue lysates (35ug/lane).This demonstrates the MARCH1 antibody detected the MARCH1 protein (arrow).

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for MARCH1. It may not necessarily be applicable to this product.

NCBI GI #	8923613
NCBI GeneID	55016
NCBI Accession #	NP_060393.1
NCBI Related Accession #	NP_001159845.1
UniProt Primary Accession #	Q8TCQ1
UniProt Secondary Accession #	Q9NWR0; D3DP29
UniProt Related Accession #	Q8TCQ1
GenBank Nucleotide #	NM_017923.3
NCBI Official Full Name	E3 ubiquitin-protein ligase MARCH1 isoform 2
NCBI Official Synonym Full Names	membrane associated ring-CH-type finger 1
NCBI Official Symbol	MARCH1
NCBI Official Synonym Symbols	RNF171; MARCH-I
UniProt Protein Name	E3 ubiquitin-protein ligase MARCH1
UniProt Synonym Protein Names	Membrane-associated RING finger protein 1; Membrane-associated RING-CH protein I; MARCH-I; RING finger protein 171
Protein Family	E3 ubiquitin-protein ligase
UniProt Gene Name	MARCH1
UniProt Synonym Gene Names	RNF171; MARCH-I
UniProt Entry Name	MARH1_HUMAN

NCBI Protein Information	E3 ubiquitin-protein ligase MARCH1
UniProt Comments for MARCH1	MARCH1: E3 ubiquitin-protein ligase that mediates ubiquitination of TFRC, CD86, FAS and MHC class II proteins, such as HLA-DR alpha and beta, and promotes their subsequent endocytosis and sorting to lysosomes via multivesicular bodies. By constitutively ubiquitinating MHC class II proteins in immature dendritic cells, down-regulates their cell surface localization thus sequestering them in the intracellular endosomal system. 2 isoforms of the human protein are produced by alternative splicing. Protein type: Membrane protein, integral; Ligase; Membrane protein, multi-pass; Ubiquitin ligase; EC 6.3.2.19; Ubiquitin conjugating system; EC 6.3.2.- Chromosomal Location of Human Ortholog: 4q32.2 Cellular Component: endoplasmic reticulum membrane; cytoplasmic vesicle membrane; lysosomal membrane; lysosome; late endosome membrane; early endosome membrane; integral to membrane; plasma membrane; trans-Golgi network membrane; endosome Molecular Function: zinc ion binding; ubiquitin-protein ligase activity; MHC protein binding; ligase activity Biological Process: protein polyubiquitination; antigen processing and presentation of peptide antigen via MHC class II; immune response
Research Articles on MARCH1	**1.** findings highlight the complex regulation of MARCH1 trafficking in the endocytic pathway as well as the intricate interactions between its cytoplasmic tails.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
