NXF5 Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	NXF5, Polyclonal Antibody
Full Product Name	NXF5, NT (NXF5, TAPL1, Nuclear RNA export factor 5, TAP-like protein 1) (AP)
Product Gene Name	anti-NXF5 antibody
Product Synonym Names	NXF5; TAPL1; Nuclear RNA export factor 5; TAP-like protein 1
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with Alkaline Phosphatase (AP).
Purity/Purification	Purified by Protein A Affinity Chromatography.
Preparation and Storage	Store product at 4 degree C. DO NOT FREEZE! Stable at 4 degree C for 12 months after receipt as an undiluted liquid. Dilute required amount only prior to immediate use. Further dilutions can be made in assay buffer. For maximum recovery of product, centrifuge the original vial prior to removing the cap.
Molecular Weight	45,628 Da
Chromosome Location	Chromosome: X; NC_000023.10 (101087085..101112549, complement). Location: Xq22
OMIM	300319
3D Structure	ModBase 3D Structure for Q9H1B4
Immunogen	NXF5 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 52-80 amino acids from the N-terminal region of human NXF5.
Conjugate	AP
Note	Preservative Free
Product Categories/Family for anti-NXF5 antibody	Antibodies; Nuclear Proteins
Applications Tested/Suitable for anti-NXF5 antibody	Western Blot (WB), ELISA (EIA)
Application Notes for anti-NXF5 antibody	WB: 1:100-500 ELISA: 1:1,000 Applications are based on unconjugated antibody.
Related Product Information for anti-NXF5 antibody	This gene is one member of a family of nuclear RNA export factor genes. The encoded protein can bind RNA, and is implicated in mRNA nuclear export. However, this protein has lost several C-terminal protein domains found in other family members that are required for export activity, and may be an evolving pseudogene. Alternatively spliced transcript variants have been described, but most are candidates for nonsense-mediated decay (NMD) and may not express proteins in vivo.
Product References and Citations for anti-NXF5 antibody	Tarpey, P.S., et al. Nat. Genet. 41(5):535-543(2009). Hillman, R.T., et al. Genome Biol. 5 (2), R8 (2004): Frints, S.G., et al. Am. J. Med. Genet. A 119A (3), 367-374 (2003): Jun, L., et al. Curr. Biol. 11(18):1381-1391(2001). Herold, A., et al. Mol. Cell. Biol. 20(23):8996-9008(2000).

Other Notes	Small volumes of anti-NXF5 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for NXF5 purchase	MBS6327359 is an antibody targeting NXF5. Also known as NXF5, NT (NXF5, TAPL1, Nuclear RNA export factor 5, TAP-like protein 1) (AP). Reactive in Human. Host: Rabbit.

Western Blot (WB) of anti-NXF5 antibody
NXF5 Antibody (N-term) western blot analysis in Jurkat cell line lysates (35ug/lane).This demonstrates the NXF5 Antibody detected the NXF5 protein (arrow).

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for NXF5. It may not necessarily be applicable to this product.

NCBI GI #	254039592
NCBI GeneID	55998
NCBI Accession #	NP_116564.2
UniProt Primary Accession #	Q9H1B4
UniProt Secondary Accession #	Q9H1B0; Q9H1B1; Q9H1B2; Q9H1B3; A2RRM0; B1AV82; B1AV83; B1AV84; B1AV85
UniProt Related Accession #	Q9H1B4
GenBank Nucleotide #	NM_032946.2
NCBI Official Full Name	nuclear RNA export factor 5
NCBI Official Synonym Full Names	nuclear RNA export factor 5
NCBI Official Symbol	NXF5
UniProt Protein Name	Nuclear RNA export factor 5
UniProt Synonym Protein Names	TAP-like protein 1
Protein Family	Nuclear RNA export factor
UniProt Gene Name	NXF5
UniProt Synonym Gene Names	TAPL1; TAPL-1
UniProt Entry Name	NXF5_HUMAN
NCBI Protein Information	nuclear RNA export factor 5; TAPL-1; TAP-like protein 1

UniProt Comments for NXF5	NXF5: Could be involved in the export of mRNA from the nucleus to the cytoplasm. Could also have a role in polarized cytoplasmic transport and localization of mRNA in neurons. A chromosomal aberration involving NXF5 has been observed in one patient with a syndromic form of mental retardation and short stature. Pericentric inversion inv(X)(p21.1;q22) that interrupts NXF5. Belongs to the NXF family. 6 isoforms of the human protein are produced by alternative splicing. Chromosomal Location of Human Ortholog: Xq22 Cellular Component: cytoplasm; nucleus Molecular Function: protein binding; RNA binding; nucleotide binding Biological Process: mRNA export from nucleus; multicellular organismal development; RNA transport
Research Articles on NXF5	**1.** Mutations of the NXF5 gene is associated with X-linked mental retardation
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
