RPL37 Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	RPL37, Polyclonal Antibody
Full Product Name	RPL37, CT (RPL37, 60S ribosomal protein L37, G1.16) (MaxLight 650)
Product Gene Name	anti-RPL37 antibody
Product Synonym Names	RPL37; 60S ribosomal protein L37; G1.16
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with MaxLight650.
Purity/Purification	Purified by Protein G Affinity Chromatography.
Preparation and Storage	Store product at 4 degree C in the dark. DO NOT FREEZE! Stable at 4 degree C for 12 months after receipt as an undiluted liquid. Dilute required amount only prior to immediate use. Further dilutions can be made in assay buffer. Caution: MaxLight650 conjugates are sensitive to light. For maximum recovery of product, centrifuge the original vial prior to removing the cap.
Molecular Weight	11,078 Da
Chromosome Location	Chromosome: 5; NC_000005.9 (40831430..40835387, complement). Location: 5p13
OMIM	604181
3D Structure	ModBase 3D Structure for P61927
Immunogen	RPL37 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 67~96 amino acids from the C-terminal region of human RPL37 Antibody (C-term).
Conjugate	MaxLight650
Note	Preservative Free
Product Categories/Family for anti-RPL37 antibody	Antibodies; Ribosomal Proteins
Applications Tested/Suitable for anti-RPL37 antibody	Western Blot (WB), FLISA
Application Notes for anti-RPL37 antibody	WB: 1:100-500 FLISA: 1:1,000 Applications are based on unconjugated antibody.
Related Product Information for anti-RPL37 antibody	Ribosomes, the organelles that catalyze protein synthesis, consist of a small 40S subunit and a large 60S subunit. Together these subunits are composed of 4 RNA species and approximately 80 structurally distinct proteins. This gene encodes a ribosomal protein that is a component of the 60S subunit. The protein belongs to the L37E family of ribosomal proteins. It is located in the cytoplasm. The protein contains a C2C2-type zinc finger-like motif.

Other Notes	Small volumes of anti-RPL37 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for RPL37 purchase	MBS6343553 is an antibody targeting RPL37. Also known as RPL37, CT (RPL37, 60S ribosomal protein L37, G1.16) (MaxLight 650). Reactive in Human. Host: Rabbit.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for RPL37. It may not necessarily be applicable to this product.

NCBI GI #	48145897
NCBI GeneID	6167
NCBI Accession #	CAG33171.1
UniProt Primary Accession #	P61927
UniProt Secondary Accession #	P02403; Q6IBB4; Q99883; B2R4H2
UniProt Related Accession #	P61927
NCBI Official Full Name	RPL37
NCBI Official Synonym Full Names	ribosomal protein L37
NCBI Official Symbol	RPL37
NCBI Official Synonym Symbols	L37
UniProt Protein Name	60S ribosomal protein L37
UniProt Synonym Protein Names	G1.16
Protein Family	60S ribosomal protein
UniProt Gene Name	RPL37
UniProt Entry Name	RL37_HUMAN
NCBI Protein Information	60S ribosomal protein L37; G1.16; 60S ribosomal protein L37a
NCBI Summary for RPL37	Ribosomes, the organelles that catalyze protein synthesis, consist of a small 40S subunit and a large 60S subunit. Together these subunits are composed of 4 RNA species and approximately 80 structurally distinct proteins. This gene encodes a ribosomal protein that is a component of the 60S subunit. The protein belongs to the L37E family of ribosomal proteins. It is located in the cytoplasm. The protein contains a C2C2-type zinc finger-like motif. As is typical for genes encoding ribosomal proteins, there are multiple processed pseudogenes of this gene dispersed through the genome. [provided by RefSeq, Jul 2008]
UniProt Comments for RPL37	Function: Binds to the 23S rRNA By similarity. Cofactor: Binds 1 zinc ion per subunit By similarity. Sequence similarities: Belongs to the ribosomal protein L37e family.
Research Articles on RPL37	**1.** Data report that depletion of L37 leads to cell cycle arrest in a MDM2/L11- and p53-dependent manner.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.

Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
