TRA2A Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	TRA2A, Polyclonal Antibody
Full Product Name	TRA2A, ID (TRA2A, Transformer-2 protein homolog alpha, Transformer-2 protein homolog A) (Azide free) (HRP)
Product Gene Name	anti-TRA2A antibody
Product Synonym Names	TRA2A; Transformer-2 protein homolog alpha; Transformer-2 protein homolog A
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with Horseradish Peroxidase (HRP).
Purity/Purification	Purified by Protein A Affinity Chromatography.
Preparation and Storage	Store product at 4 degree C if to be used immediately within two weeks. For long-term storage, aliquot to avoid repeated freezing and thawing and store at -20 degree C. Aliquots are stable at -20 degree C for 12 months after receipt. Dilute required amount only prior to immediate use. Further dilutions can be made in assay buffer. Note: Sodium azide is a potent inhibitor of peroxidase and should not be added to HRP conjugates. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap.
Molecular Weight	32,689 Da
Chromosome Location	Chromosome: 7; NC_000007.13 (23544399..23571656, complement). Location: 7p15.3
OMIM	602718
3D Structure	ModBase 3D Structure for Q13595
Immunogen	TRA2A antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 152-182 amino acids from the Central region of human TRA2A.
Conjugate	HRP
Note	Preservative Free
Product Categories/Family for anti-TRA2A antibody	Antibodies; RNA Binding Proteins
Applications Tested/Suitable for anti-TRA2A antibody	Western Blot (WB), ELISA (EIA)
Application Notes for anti-TRA2A antibody	WB: 1:100-500 ELISA: 1:1,000 Applications are based on unconjugated antibody.
Related Product Information for anti-TRA2A antibody	This gene is a member of the transformer 2 homolog family and encodes a protein with two RS domains and an RRM (RNA recognition motif) domain. This phosphorylated nuclear protein binds to specific RNA sequences and plays a role in the regulation of pre-mRNA splicing. Several alternatively spliced transcript variants of this gene have been described; however, the full-length nature of some of these variants has not been determined. [provided by RefSeq].

Other Notes	Small volumes of anti-TRA2A antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.
Searchable Terms for TRA2A purchase	MBS6357806 is an antibody targeting TRA2A. Also known as TRA2A, ID (TRA2A, Transformer-2 protein homolog alpha, Transformer-2 protein homolog A) (Azide free) (HRP). Reactive in Human. Host: Rabbit.

Western Blot (WB) of anti-TRA2A antibody
TRA2A Antibody (Center) western blot analysis in NCI-H292 cell line lysates (35ug/lane).This demonstrates the TRA2A antibody detected the TRA2A protein (arrow).

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for TRA2A. It may not necessarily be applicable to this product.

NCBI GI #	9558733
NCBI GeneID	29896
NCBI Accession #	NP_037425.1
UniProt Primary Accession #	Q13595
UniProt Related Accession #	Q13595
GenBank Nucleotide #	NM_013293.3
NCBI Official Full Name	transformer-2 protein homolog alpha
NCBI Official Synonym Full Names	transformer 2 alpha homolog (Drosophila)
NCBI Official Symbol	TRA2A
NCBI Official Synonym Symbols	AWMS1; HSU53209
UniProt Protein Name	Transformer-2 protein homolog alpha
UniProt Synonym Protein Names	Transformer-2 protein homolog A
Protein Family	Transformer-2 protein
UniProt Gene Name	TRA2A
UniProt Synonym Gene Names	TRA-2 alpha; TRA2-alpha
UniProt Entry Name	TRA2A_HUMAN
NCBI Protein Information	transformer-2 protein homolog alpha; Tra2alpha; TRA2-alpha; TRA-2 alpha; htra-2 alpha; htra-2-alpha; transformer-2 alpha; transformer-2 protein homolog A; putative MAPK activating protein PM24

NCBI Summary for TRA2A	This gene is a member of the transformer 2 homolog family and encodes a protein with two RS domains and an RRM (RNA recognition motif) domain. This phosphorylated nuclear protein binds to specific RNA sequences and plays a role in the regulation of pre-mRNA splicing. Several alternatively spliced transcript variants of this gene have been described; however, the full-length nature of some of these variants has not been determined. [provided by RefSeq, Jul 2008]
UniProt Comments for TRA2A	TRA2A: Sequence-specific RNA-binding protein which participates in the control of pre-mRNA splicing. Belongs to the splicing factor SR family. 2 isoforms of the human protein are produced by alternative splicing. Protein type: RNA-binding; RNA splicing; RNA processing Chromosomal Location of Human Ortholog: 7p15.3 Cellular Component: intracellular membrane-bound organelle; nucleolus; nucleus Molecular Function: nucleotide binding Biological Process: nuclear mRNA splicing, via spliceosome
Research Articles on TRA2A	**1.** findings show the inclusion of both HIV-1 exon 3 and vpr mRNA processing is promoted by an exonic splicing enhancer (ESEvpr) localized between exonic splicing silencer ESSV and 5'ss D3; the ESEvpr sequence was found to be bound by members of the Tra2 protein family
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
