TSC1 Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	TSC1, Polyclonal Antibody
Full Product Name	TSC1, Phosphorylated (S591) (Tsc1, Kiaa0243, Hamartin, Tuberous sclerosis 1 protein homolog) (Azide free) (HRP)
Product Gene Name	anti-TSC1 antibody
Product Synonym Names	Tsc1; Kiaa0243; Hamartin; Tuberous sclerosis 1 protein homolog
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Mouse
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with Horseradish Peroxidase (HRP).
Purity/Purification	Purified by Protein A Affinity Chromatography.
Preparation and Storage	Store product at 4 degree C if to be used immediately within two weeks. For long-term storage, aliquot to avoid repeated freezing and thawing and store at -20 degree C. Aliquots are stable at -20 degree C for 12 months after receipt. Dilute required amount only prior to immediate use. Further dilutions can be made in assay buffer. Note: Sodium azide is a potent inhibitor of peroxidase and should not be added to HRP conjugates. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap.
Molecular Weight	128746
3D Structure	ModBase 3D Structure for Q9EP53
Immunogen	mouse TSC1 Antibody is generated from rabbits immunized with a KLH conjugated synthetic phosphopeptide corresponding to amino acid residues surrounding S591 of mouse TSC1.
Conjugate	HRP
Antigen Modification	Phosphorylated
Note	Preservative Free
Product Categories/Family for anti-TSC1 antibody	Antibodies; Disease Markers
Applications Tested/Suitable for anti-TSC1 antibody	ELISA (EIA), Dot Blot (DB)
Application Notes for anti-TSC1 antibody	ELISA: 1:1,000 Applications are based on unconjugated antibody.
Related Product Information for anti-TSC1 antibody	In complex with TSC2, inhibits the nutrient-mediated or growth factor-stimulated phosphorylation of S6K1 and EIF4EBP1 by negatively regulating mTORC1 signaling (By similarity). Implicated as a tumor suppressor. Involved in microtubule-mediated protein transport, but this seems to be due to unregulated mTOR signaling (By similarity).
Product References and Citations for anti-TSC1 antibody	Kladney, R.D., et al. Cancer Res. 70(21):8937-8947(2010). Sathaliyawala, T., et al. Immunity 33(4):597-606(2010). Scott, C.L., et al. Am. J. Physiol. Lung Cell Mol. Physiol. 299 (4), L455-L471 (2010): Bartolome, A., et al. Endocrinology 151(7):3084-3094(2010). Squarize, C.H., et al. PLoS ONE 5 (5), E10643 (2010).
Other Notes	Small volumes of anti-TSC1 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

Searchable Terms for TSC1 purchase	MBS6359071 is an antibody targeting TSC1. Also known as TSC1, Phosphorylated (S591) (Tsc1, Kiaa0243, Hamartin, Tuberous sclerosis 1 protein homolog) (Azide free) (HRP). Reactive in Mouse. Host: Rabbit.

Dot Blot (DB) of anti-TSC1 antibody
Dot blot analysis of mouse TSC1 Antibody (Phospho S591) Phospho-specific Pab on nitrocellulose membrane. 50ng of Phospho-peptide or Non Phospho-peptide per dot were adsorbed. Antibody working concentrations are 0.6ug per ml.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for TSC1. It may not necessarily be applicable to this product.

NCBI GI #	79750409
NCBI GeneID	64930
NCBI Accession #	NP_075025.2
UniProt Primary Accession #	Q9EP53
UniProt Secondary Accession #	Q3UHF2; Q7TS92; Q80U55; Q924U7; A2AHW1
UniProt Related Accession #	Q9EP53
GenBank Nucleotide #	NM_022887.4
NCBI Official Full Name	hamartin isoform 2
NCBI Official Synonym Full Names	tuberous sclerosis 1
NCBI Official Symbol	Tsc1
UniProt Protein Name	Hamartin
UniProt Synonym Protein Names	Tuberous sclerosis 1 protein homolog
Protein Family	Hamartin
UniProt Gene Name	Tsc1
UniProt Synonym Gene Names	Kiaa0243
UniProt Entry Name	TSC1_MOUSE
NCBI Protein Information	hamartin

UniProt Comments for TSC1	TSC1: tuberous sclerosis protein 1 (TSC1). May have tumor suppressor activity. Together with tuberin (TSC2), inhibits mammalian target of rapamycin (mTOR)-mediated signaling to eukaryotic initiation factor 4E-binding protein 1 (4E-BP1) and ribosomal protein S6 kinase. Regulated by the phosphatidylinositol 3-kinase/Akt pathway and phosphorylation of tuberin. Phosphorylated by cyclin-dependent kinase 1/cyclin B during the cell cycle. Protein type: Tumor suppressor; Motility/polarity/chemotaxis Cellular Component: TSC1-TSC2 complex; growth cone; protein complex; cytoskeleton; membrane; intracellular membrane-bound organelle; lamellipodium; cytoplasm; plasma membrane; actin filament; cell cortex; cytosol Molecular Function: protein binding; chaperone binding; GTPase activating protein binding; protein N-terminus binding; GTPase regulator activity Biological Process: myelination; protein heterooligomerization; regulation of cell cycle; regulation of cell-matrix adhesion; cell-matrix adhesion; negative regulation of insulin receptor signaling pathway; negative regulation of cell size; regulation of phosphoprotein phosphatase activity; cardiac muscle cell differentiation; response to insulin stimulus; regulation of translation; negative regulation of cell proliferation; cell projection organization and biogenesis; positive regulation of focal adhesion formation; synapse organization and biogenesis; kidney development; potassium ion transport; nervous system development; regulation of GTPase activity; negative regulation of TOR signaling pathway; protein stabilization; hippocampus development; rRNA export from nucleus; embryonic development; regulation of actin cytoskeleton organization and biogenesis; glucose import; regulation of stress fiber formation; negative regulation of translation; neural tube closure; regulation of focal adhesion formation; cerebral cortex development; regulation of protein kinase activity

Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
