AHSG Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	AHSG, Polyclonal Antibody
Full Product Name	AHSG (Alpha-2-HS-Glycoprotein, Alpha-2-Z-globulin, Ba-alpha-2-glycoprotein, Fetuin-A, FETUA, PRO2743) (HRP)
Product Gene Name	anti-AHSG antibody
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with Horseradish Peroxidase (HRP).
Purity/Purification	Purified by Protein A Affinity Chromatography.
Specificity	Recognizes human AHSG.
Preparation and Storage	Store product at 4 degree C if to be used immediately within two weeks. For long-term storage, aliquot to avoid repeated freezing and thawing and stor
Immunogen	Full length human AHSG, aa1-367 (AAH48198.1).
Immunogen Sequence	MKSLVLLLCLAQLWGCHSAPHGPGLIYRQPNCDDPETEEAALVAIDYINQNLPWGYKHTLNQIDEVKVWPQQPSGELFEIEIDTLETTCHVLDPTPVARCS
Conjugate	HRP
Note	Preservative Free
Product Categories/Family for anti-AHSG antibody	Antibodies; Growth Factors; Cytokines
Applications Tested/Suitable for anti-AHSG antibody	Western Blot (WB)
Application Notes for anti-AHSG antibody	Applications are based on unconjugated antibody.
Related Product Information for anti-AHSG antibody	Alpha2-HS glycoprotein (AHSG), a glycoprotein present in the serum, is synthesized by hepatocytes. The AHSG molecule consists of two polypeptide However, its exact significance is still obscure.
Other Notes	Small volumes of anti-AHSG antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necess
Searchable Terms for AHSG purchase	MBS6369136 is an antibody targeting AHSG. Also known as AHSG (Alpha-2-HS-Glycoprotein, Alpha-2-Z-globulin, Ba-alpha-2-glycoprotein, Fetuin-A,

Western Blot (WB) of anti-AHSG antibody
AHSG rabbit polyclonal antibody. Western Blot analysis of AHSG expression in human liver.

Western Blot (WB) of anti-AHSG antibody
Western Blot analysis of AHSG expression in transfected 293T cell line by AHSG polyclonal antibody. Lane 1: AHSG transfected lysate (39.3kD). Lane 2: Non-transfected lysate.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for AHSG. It may not necessarily be applicable to this product.

NCBI GI #	29387000
NCBI GeneID	197
NCBI Accession #	AAH48198.1
UniProt Related Accession #	P02765
GenBank Nucleotide #	NM_001622
NCBI Official Full Name	Alpha-2-HS-glycoprotein
NCBI Official Synonym Full Names	alpha 2-HS glycoprotein
NCBI Official Symbol	AHSG
NCBI Official Synonym Symbols	AHS; A2HS; HSGA; APMR1; FETUA
Protein Family	Alpha-2-HS-glycoprotein
NCBI Protein Information	alpha-2-HS-glycoprotein
NCBI Summary for AHSG	The protein encoded by this gene is a negatively-charged serum glycoprotein that is synthesized by hepatocytes. The encoded protein consists of two polypeptide chains, which are both cleaved from a proprotein encoded from a single mRNA. It is involved in several processes, including endocytosis, brain development, and the formation of bone tissue. Defects in this gene are a cause of susceptibility to leanness. [provided by RefSeq, Aug 2017]
Research Articles on AHSG	**1.** Data found that the abundance of fetuin-A was upregulated at mRNA and protein levels in placental samples of pregnant women with gestational diabetes mellitus (GDM). Fetuin-A inhibited placental cell growth by inducing apoptosis and inhibiting S phase entry. Furthermore, fetuin-A inhibited autophagy blocking the growth of the primary cilium, a cellular antenna that regulates placenta development and differentiation.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.

Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
