PGD Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	PGD, Polyclonal Antibody
Full Product Name	PGD (6-phosphogluconate Dehydrogenase, Decarboxylating, PGDH) (MaxLight 550)
Product Gene Name	anti-PGD antibody
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with MaxLight550.
Purity/Purification	Purified by Protein A Affinity Chromatography.
Specificity	Recognizes human PGD.
Preparation and Storage	Store product at 4 degree C in the dark. DO NOT FREEZE! Stable at 4 degree C for 12 months after receipt as an undiluted liquid. Dilute required amo
Molecular Weight	53,140 Da
Chromosome Location	Chromosome: 1; NC_000001.10 (10459085..10480201). Location: 1p36.22
OMIM	172200
3D Structure	ModBase 3D Structure for P52209
Immunogen	Full-length recombinant protein corresponding to aa1-483 from human PGD (NP_002622.2).
Immunogen Sequence	MAQADIALIGLAVMGQNLILNMNDHGFVVCAFNRTVSKVDDFLANEAKGTKVVGAQSLKEMVSKLKKPRRIILLVKAGQAVDDFIEKLVPLLDTGDIIIDGGN
Conjugate	MaxLight550
Note	Preservative Free
Product Categories/Family for anti-PGD antibody	Antibodies; Enzymes; Dehydrogenase
Applications Tested/Suitable for anti-PGD antibody	Western Blot (WB)
Application Notes for anti-PGD antibody	Applications are based on unconjugated antibody.

Related Product Information for anti-PGD antibody	Phosphogluconate dehydrogenase is an enzyme in the pentose phosphate pathway. It forms ribulose 5-phosphate from 6-phosphogluconate. Phospho
Other Notes	Small volumes of anti-PGD antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessa
Searchable Terms for PGD purchase	MBS6389181 is an antibody targeting PGD. Also known as PGD (6-phosphogluconate Dehydrogenase, Decarboxylating, PGDH) (MaxLight 550). Reac

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for PGD. It may not necessarily be applicable to this product.

NCBI GI #	40068518
NCBI GeneID	5226
NCBI Accession #	NP_002622.2
UniProt Primary Accession #	P52209
UniProt Secondary Accession #	Q9BWD8; A8K2Y9
UniProt Related Accession #	P52209
GenBank Nucleotide #	NM_002631.2
NCBI Official Full Name	6-phosphogluconate dehydrogenase, decarboxylating
NCBI Official Synonym Full Names	phosphogluconate dehydrogenase
NCBI Official Symbol	PGD
NCBI Official Synonym Symbols	6PGD
UniProt Protein Name	6-phosphogluconate dehydrogenase, decarboxylating
Protein Family	Prostaglandin D2 receptor
UniProt Gene Name	PGD
UniProt Synonym Gene Names	PGDH
UniProt Entry Name	6PGD_HUMAN
NCBI Protein Information	6-phosphogluconate dehydrogenase, decarboxylating
NCBI Summary for PGD	6-phosphogluconate dehydrogenase is the second dehydrogenase in the pentose phosphate shunt. Deficiency of this enzyme is generally asymptomatic, and the inheritance of this disorder is autosomal dominant. Hemolysis results from combined deficiency of 6-phosphogluconate dehydrogenase and 6-phosphogluconolactonase suggesting a synergism of the two enzymopathies. [provided by RefSeq, Jul 2008]

UniProt Comments for PGD	PGD: an oxidative carboxylase that catalyses the decarboxylating reduction of 6-phosphogluconate into ribulose 5-phosphate in the presence of NADP. This reaction is a component of the hexose mono-phosphate shunt and pentose phosphate pathways. Protein type: Oxidoreductase; Carbohydrate Metabolism - pentose phosphate pathway; Other Amino Acids Metabolism - glutathione; EC 1.1.1.44 Chromosomal Location of Human Ortholog: 1p36.22 Cellular Component: nucleus; cytosol Molecular Function: phosphogluconate dehydrogenase (decarboxylating) activity; NADP binding Biological Process: pentose-phosphate shunt; pentose-phosphate shunt, oxidative branch; carbohydrate metabolic process; pathogenesis; D-gluconate metabolic process; pentose biosynthetic process
Research Articles on PGD	**1.** Glycolytic cancer cells lacking 6-phosphogluconate dehydrogenase metabolize glucose to induce senescence
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
