TRIM16 Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	TRIM16, Polyclonal Antibody
Full Product Name	TRIM16 (Tripartite Motif-containing Protein 16, Estrogen-responsive B Box Protein, EBBP) (MaxLight 405)
Product Gene Name	anti-TRIM16 antibody
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with MaxLight405.
Purity/Purification	Purified by Protein A Affinity Chromatography.
Specificity	Recognizes human TRIM16.
Preparation and Storage	Store product at 4 degree C in the dark. DO NOT FREEZE! Stable at 4 degree C for 12 months after receipt as an undiluted liquid. Dilute required amo
Immunogen	Full-length human TRIM16, aa1-564 (NP_006461.3).
Immunogen Sequence	MAELDLMAPGPLPRATAQPPAPLSPDSGSPSPDSGSASPVEEEDVGSSEKLGRETEEQDSDSAEQGDPAGEGKEVLCDFCLDDTRRVKAVKSCLTCMV
Conjugate	MaxLight405
Note	Preservative Free
Product Categories/Family for anti-TRIM16 antibody	Antibodies; Transcription Factors
Applications Tested/Suitable for anti-TRIM16 antibody	Western Blot (WB)
Application Notes for anti-TRIM16 antibody	Applications are based on unconjugated antibody.
Related Product Information for anti-TRIM16 antibody	The TRIM16 gene was identified as an estrogen and anti-estrogen regulated gene in epithelial cells stably expressing estrogen receptor. TRIM16 conta
Other Notes	Small volumes of anti-TRIM16 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If neces
Searchable Terms for TRIM16 purchase	MBS6397187 is an antibody targeting TRIM16. Also known as TRIM16 (Tripartite Motif-containing Protein 16, Estrogen-responsive B Box Protein, EBB

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for TRIM16. It may not necessarily be applicable to this product.

NCBI GI #	48255912
NCBI GeneID	10626
NCBI Accession #	NM_006470.3
UniProt Related Accession #	O95361
GenBank Nucleotide #	NM_006470.3
NCBI Official Full Name	Homo sapiens tripartite motif containing 16 (TRIM16), mRNA
NCBI Official Synonym Full Names	tripartite motif containing 16
NCBI Official Symbol	TRIM16
NCBI Official Synonym Symbols	EBBP
Protein Family	Tripartite motif-containing protein
NCBI Protein Information	tripartite motif-containing protein 16
NCBI Summary for TRIM16	The protein encoded by this gene is a tripartite motif (TRIM) family member that contains two B box domains and a coiled-coiled region that are characteristic of the B box zinc finger protein family. While it lacks a RING domain found in other TRIM proteins, the encoded protein can homodimerize or heterodimerize with other TRIM proteins and has E3 ubiquitin ligase activity. This gene is also a tumor suppressor and is involved in secretory autophagy. [provided by RefSeq, Jan 2017]
Research Articles on TRIM16	**1.** TRIM16 acts as a scaffold protein and, by interacting with p62, ULK1, ATG16L1, and LC3B, facilitates autophagic degradation of protein aggregates.
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
