FGA Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	FGA, Polyclonal Antibody
Full Product Name	FGA (Fibrinogen alpha Chain, Fib2, MGC119422, MGC119423, MGC119425) (MaxLight 750)
Product Gene Name	anti-FGA antibody
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with MaxLight750.
Purity/Purification	Purified by Protein A Affinity Chromatography.
Specificity	Recognizes human fibrinogen Alpha.
Preparation and Storage	Store product at 4 degree C in the dark. DO NOT FREEZE! Stable at 4 degree C for 12 months after receipt as an undiluted liquid. Dilute required amount only prior to immediate use. Further dilutions can be made in assay buffer. Caution: MaxLight750 conjugates are sensitive to light. For maximum recovery of product, centrifuge the original vial prior to removing the cap.
Immunogen	N-terminus of FGA corresponding to MFSMRIVCLVLSVVGTAWTADSGEGDFLAEGGGVRGPRVVERHQSACKDS
Conjugate	MaxLight750
Note	Preservative Free
Product Categories/Family for anti-FGA antibody	Antibodies; Fibrinogen
Applications Tested/Suitable for anti-FGA antibody	Immunohistochemistry (IHC), Western Blot (WB)
Application Notes for anti-FGA antibody	IHC: 4-8ug/ml WB: 5ug/ml Applications are based on unconjugated antibody.
Related Product Information for anti-FGA antibody	MBS6400535 is an antibody targeting FGA. Also known as FGA (Fibrinogen alpha Chain, Fib2, MGC119422, MGC119423, MGC119425) (MaxLight 750). Reactive in Human. Host: Rabbit.
Other Notes	Small volumes of anti-FGA antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

Testing Data of anti-FGA antibody
Fibrinogen Alpha antibody used at 5ug/ml to detect target protein.

Immunohistochemistry (IHC) of anti-FGA antibody
Fibrinogen Alpha antibody was used for immunohistochemistry at a concentration of 4-8ug/ml to stain Squamous epithelial cells (arrows) in Human Skin. Magnification is at 400X

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for FGA. It may not necessarily be applicable to this product.

Protein Family	Fibrinogen
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
