DAZ Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	DAZ, Polyclonal Antibody
Full Product Name	DAZ, NT (Deleted In Azoospermia Protein 1, DAZ1) (Biotin)
Product Gene Name	anti-DAZ antibody
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with Biotin.
Purity/Purification	Purified by Immunoaffinity chromatography.
Specificity	Recognizes human DAZL.
Preparation and Storage	Store product at 4 degree C if to be used immediately within two weeks. For long-term storage, aliquot to avoid repeated freezing and thawing and store at -20 degree C. Aliquots are stable at -20 degree C for 12 months after receipt. Dilute required amount only prior to immediate use. Further dilutions can be made in assay buffer. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap.
Molecular Weight	67,295 Da
OMIM	gene 415000
3D Structure	ModBase 3D Structure for Q9NQZ3
Immunogen	Synthetic peptide selected from the N-terminal region of human DAZL (KLH).
Conjugate	Biotin
Note	Preservative Free
Product Categories/Family for anti-DAZ antibody	Antibodies; Binding Proteins
Applications Tested/Suitable for anti-DAZ antibody	Immunohistochemistry (IHC), ELISA (EIA)
Application Notes for anti-DAZ antibody	IHC: 1:10-1:50 ELISA: 1:1,000 Applications are based on unconjugated antibody.
Related Product Information for anti-DAZ antibody	MBS6472198 is an antibody targeting DAZ. Also known as DAZ, NT (Deleted In Azoospermia Protein 1, DAZ1) (Biotin). Reactive in Human. Host: Rabbit.
Product References and Citations for anti-DAZ antibody	1. Huang, W.J., Hum. Reprod. 23(6), 1280-1289 (2008). 2. Lardone, M.C., Mol. Hum. Reprod. 13(10), 705-712 (2007).
Other Notes	Small volumes of anti-DAZ antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for DAZ. It may not necessarily be applicable to this product.

NCBI GI #	189181654
NCBI GeneID	1617
NCBI Accession #	NP_004072
UniProt Primary Accession #	Q9NQZ3
UniProt Secondary Accession #	Q1RMF9; Q9NQZ4
UniProt Related Accession #	Q9NQZ3
GenBank Nucleotide #	NM_004081
NCBI Official Full Name	deleted in azoospermia protein 1
NCBI Official Synonym Full Names	deleted in azoospermia 1
NCBI Official Symbol	DAZ1
NCBI Official Synonym Symbols	DAZ; SPGY
UniProt Protein Name	Deleted in azoospermia protein 1
Protein Family	DAZ-associated protein
UniProt Gene Name	DAZ1
UniProt Synonym Gene Names	DAZ; SPGY
UniProt Entry Name	DAZ1_HUMAN
NCBI Protein Information	deleted in azoospermia protein 1
UniProt Comments for DAZ	DAZ1: RNA-binding protein that plays an essential role in spermatogenesis. May act by binding to the 3'-UTR of mRNAs and regulating their translation. Promotes germ-cell progression to meiosis and formation of haploid germ cells. Defects in DAZ1 may be a cause of spermatogenic failure Y-linked type 2 (SPGFY2). It is a disorder resulting in the absence (azoospermia) or reduction (oligozoospermia) of sperm in the semen, leading to male infertility. AZFc deletions in the Yq11.23 region including the DAZ genes are the most common known genetic cause of human male infertility. Belongs to the RRM DAZ family. Protein type: RNA-binding Chromosomal Location of Human Ortholog: Yq11.223 Cellular Component: cytoplasm; nucleus Molecular Function: protein binding; translation activator activity; RNA binding; nucleotide binding Biological Process: positive regulation of translational initiation; multicellular organismal development; spermatogenesis; cell differentiation Disease: Spermatogenic Failure, Y-linked, 2
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.

Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
