PPP2R3L Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	PPP2R3L, Polyclonal Antibody
Full Product Name	PPP2R3L, NT (Serine/Threonine-protein Phosphatase 2A Regulatory Subunit B" Subunit beta, PP2A Subunit B Isoform PR48, Protein Phosphatase 2A 48kD Regulatory Subunit, PR48) (MaxLight 750)
Product Gene Name	anti-PPP2R3L antibody
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with MaxLight750.
Purity/Purification	Purified by Ammonium Sulfate Precipitation.
Specificity	Recognizes human PR48.
Preparation and Storage	Store product at 4 degree C in the dark. DO NOT FREEZE! Stable at 4 degree C for 12 months after receipt as an undiluted liquid. Dilute required amount only prior to immediate use. Further dilutions can be made in assay buffer. Caution: MaxLight750 conjugates are sensitive to light. For maximum recovery of product, centrifuge the original vial prior to removing the cap.
Molecular Weight	65kDa
OMIM	300339
3D Structure	ModBase 3D Structure for Q9Y5P8
Immunogen	Synthetic peptide selected from the N-terminal region of human PR48 (KLH).
Conjugate	MaxLight750
Note	Preservative Free
Product Categories/Family for anti-PPP2R3L antibody	Antibodies; Enzymes; Phosphatase
Applications Tested/Suitable for anti-PPP2R3L antibody	Western Blot (WB), FLISA
Application Notes for anti-PPP2R3L antibody	WB: 1:50-1:100 FLISA: 1:1,000 Applications are based on unconjugated antibody.
Related Product Information for anti-PPP2R3L antibody	MBS6495530 is an antibody targeting PPP2R3L. Also known as PPP2R3L, NT (Serine/Threonine-protein Phosphatase 2A Regulatory Subunit B" Subunit beta, PP2A Subunit B Isoform PR48, Protein Phosphatase 2A 48kD Regulatory Subunit, PR48) (MaxLight 750). Reactive in Human. Host: Rabbit.
Product References and Citations for anti-PPP2R3L antibody	1. Stevens, I., Eur. J. Biochem. 270(2), 376-387 (2003). 2. Yokoyama, N., Oncogene 20(42), 6057-6065 (2001). 3. Yan, Z., Mol. Cell. Biol. 20(3), 1021-1029 (2000).
Other Notes	Small volumes of anti-PPP2R3L antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

Western Blot (WB) of anti-PPP2R3L antibody
Western blot analysis of PR48 antibody (N-term) in 293, NCI-H460, Hela, K562 and HL60 cell line lysates (35ug/lane). PR48 (arrow) was detected using the purified Pab.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for PPP2R3L. It may not necessarily be applicable to this product.

NCBI GI #	33695078
NCBI GeneID	28227
NCBI Accession #	NP_037371
UniProt Primary Accession #	Q9Y5P8
UniProt Related Accession #	Q9Y5P8
GenBank Nucleotide #	NM_013239
NCBI Official Full Name	serine/threonine-protein phosphatase 2A regulatory subunit B'' subunit beta
NCBI Official Synonym Full Names	protein phosphatase 2 regulatory subunit B"beta
NCBI Official Symbol	PPP2R3B
NCBI Official Synonym Symbols	PR48; PR70; NYREN8; PPP2R3L; PPP2R3LY
UniProt Protein Name	Serine/threonine-protein phosphatase 2A regulatory subunit B'' subunit beta
UniProt Synonym Protein Names	PP2A subunit B isoform PR48; Protein phosphatase 2A 48 kDa regulatory subunit
UniProt Gene Name	PPP2R3B
UniProt Synonym Gene Names	PPP2R3L
UniProt Entry Name	P2R3B_HUMAN
NCBI Protein Information	serine/threonine-protein phosphatase 2A regulatory subunit B'' subunit beta
NCBI Summary for PPP2R3L	Protein phosphatase 2 (formerly named type 2A) is one of the four major Ser/Thr phosphatases and is implicated in the negative control of cell growth and division. Protein phosphatase 2 holoenzymes are heterotrimeric proteins composed of a structural subunit A, a catalytic subunit C, and a regulatory subunit B. The regulatory subunit is encoded by a diverse set of genes that have been grouped into the B/PR55, B'/PR61, and B''/PR72 families. These different regulatory subunits confer distinct enzymatic specificities and intracellular localizations to the holozenzyme. The product of this gene belongs to the B'' family. The B'' family has been further divided into subfamilies. The product of this gene belongs to the beta subfamily of regulatory subunit B''. [provided by RefSeq, Apr 2010]

UniProt Comments for PPP2R3L	PPP2R3B: The B regulatory subunit might modulate substrate selectivity and catalytic activity, and also might direct the localization of the catalytic enzyme to a particular subcellular compartment. 2 isoforms of the human protein are produced by alternative splicing. Protein type: Protein phosphatase, regulatory subunit; Motility/polarity/chemotaxis Chromosomal Location of Human Ortholog: Xp22.33; Yp11.3 Cellular Component: nucleoplasm; protein phosphatase type 2A complex; nucleus Molecular Function: protein binding; protein phosphatase type 2A regulator activity; protein serine/threonine phosphatase activity; calcium ion binding; phosphoprotein phosphatase activity Biological Process: regulation of catalytic activity; mitotic cell cycle; protein amino acid dephosphorylation; cell cycle arrest; G1/S transition of mitotic cell cycle
Research Articles on PPP2R3L	**1.** PPP2R3B codes for the PR70 protein, a regulatory substrate-recognizing subunit of protein phosphatase 2A. PR70 decreased melanoma growth by negatively interfering with DNA replication and cell cycle progression through its role in stabilizing CDC6-chromatin licensing and CDT1 interaction
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
