sRANKL Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	sRANKL, Polyclonal Antibody
Full Product Name	sRANKL (soluble RANK Ligand, Receptor Activator of NFkB Ligand) (AP)
Product Gene Name	anti-sRANKL antibody
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Mouse
Form/Format	Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with Alkaline Phosphatase (AP).
Purity/Purification	Purified by Immunoaffinity chromatography.
Specificity	Recognizes murine soluble RANKL.
Preparation and Storage	May be stored at 4 degree C before opening. DO NOT FREEZE! Stable at 4 degree C as an undiluted liquid. Dilute only prior to immediate use. Stable for 12 months after receipt. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Further dilutions can be made in assay buffer. Freezing alkaline phosphatase conjugates will result in a substantial loss of activity.
Immunogen	Highly pure (>98%) recombinant murine soluble RANKL
Conjugate	AP
Note	Preservative Free
Product Categories/Family for anti-sRANKL antibody	Antibodies; RANK
Applications Tested/Suitable for anti-sRANKL antibody	Western Blot (WB), ELISA (EIA)
Application Notes for anti-sRANKL antibody	WB: To detect msRANKL by Western Blot analysis this antibody can be used at a concentration of 0.1-0.2ug/ml. Used in conjunction with compatible secondary reagents the detection limit for recombinant msRANKL is 1.5-3.0ng/lane, under either reducing or non-reducing conditions. ELISA: To detect msRANKL by direct ELISA (using 100ul/well antibody solution) a concentration of at least 0.5ug/ml of this antibody is required. This antigen affinity purified antibody, in conjunction with compatible secondary reagents, allows the detection of 0.2-0.4ng/well of recombinant msRANKL. Applications are based on unconjugated antibody.
Related Product Information for anti-sRANKL antibody	MBS6496839 is an antibody targeting sRANKL. Also known as sRANKL (soluble RANK Ligand, Receptor Activator of NFkB Ligand) (AP). Reactive in Mouse. Host: Rabbit.
Other Notes	Small volumes of anti-sRANKL antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
