BID (BH3 Interacting Domain Death Agonist) (Control Peptide) Peptide – Synthetic Peptide, PurifiedPurified Purity

PRODUCT OVERVIEW

Product Name	BID, Peptide
Full Product Name	BID (BH3 Interacting Domain Death Agonist) (Control Peptide)
Form/Format	Supplied as a liquid in PBS, pH 7.2, 0.1% BSA, 0.02% sodium azide.
Purity/Purification	Purified Purified
Preparation and Storage	May be stored at 4 degree C for short-term only. For long-term storage and to avoid repeated freezing and thawing, aliquot and add glycerol (40-50%). Store at -20 degree C or colder. Aliquots are stable for at least 6 months at -20 degree C. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Further dilutions can be made in assay buffer.
Location	14aa near the center of human Bid (1).
Product Categories/Family for BID peptide	Molecular Biology; MB-Peptides
Applications Tested/Suitable for BID peptide	ELISA (EL/EIA), Western Blot (WB)
Application Notes for BID peptide	The peptide is used for blocking the activity of anti-Bid antibody. It usually blocks the antibody activity completely in Western blot by incubating the peptide with equal volume of antibody for 30 min at 37 degree C.
Related Product Information for BID peptide	MBS658380 is a peptide targeting BID. Also known as BID (BH3 Interacting Domain Death Agonist) (Control Peptide).
Other Notes	Small volumes of BID peptide vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for BID. It may not necessarily be applicable to this product.

Protein Family	BH3-interacting domain death agonist
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.

Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
