STMN1 Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	STMN1, Polyclonal Antibody
Full Product Name	STMN1 (Ab-62) Antibody
Product Gene Name	anti-STMN1 antibody
Product Synonym Names	STMN1; STN1; stathmin
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human, Mouse, Rat
Form/Format	Liquid; Supplied at 1.0mg/mL In Phosphate Buffered Saline (without Mg2+ and Ca2+), pH 7.4, 150mM NaCl, 0.02% Sodium Azide and 50% Glycerol.
Purity/Purification	Antibodies were produced by immunizing rabbits with synthetic peptide and KLH conjugates. Antibodies were Purified by affinity-chromatography using epitope-specific peptide.
Preparation and Storage	Upon receipt, store at -20 degree C or -80 degree C. Avoid repeated freeze.
Molecular Weight	17,303 Da
Chromosome Location	Chromosome: 1; NC_000001.10 (26210677..26233368, complement). Location: 1p36.11
OMIM	151442
3D Structure	ModBase 3D Structure for P16949
Immunogen	Peptide sequence around aa.60~64 (R-K-S-H-E) derived from Human Stathmin 1.
Immunogen Species	Human
Conjugate	Non-conjugated
Product Categories/Family for anti-STMN1 antibody	Neuroscience
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Applications Tested/Suitable for anti-STMN1 antibody	ELISA (EIA), Western Blot (WB), Immunohistochemistry (IHC)
Application Notes for anti-STMN1 antibody	WB: 1:500-1:1000 IHC: 1:50-1:200
Related Product Information for anti-STMN1 antibody	MBS7132011 is an antibody targeting STMN1. Also known as STMN1 (Ab-62) Antibody. Reactive in Human, Mouse, Rat. Host: Rabbit.
Other Notes	Small volumes of anti-STMN1 antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

Western Blot (WB) of anti-STMN1 antibody
Western blot analysis of extracts from Hela cells using stathmin1(Ab-62) Antibody and the same antibody preincubated with blocking peptide.

Immunohistochemistry (IHC) of anti-STMN1 antibody
Immunohistochemical analysis of paraffin-embedded human colon carcinoma tissue using stathmin1(Ab-62) Antibody(left) or the same antibody preincubated with blocking peptide(right).

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for STMN1. It may not necessarily be applicable to this product.

NCBI GI #	224451142
NCBI GeneID	3925
NCBI Accession #	NP_001138926.1
UniProt Primary Accession #	P16949
UniProt Secondary Accession #	A2A2D1; B2R4E7; B7Z8N4; D3DPJ5
UniProt Related Accession #	P16949
GenBank Nucleotide #	NM_001145454.1
NCBI Official Full Name	stathmin isoform b
NCBI Official Synonym Full Names	stathmin 1
NCBI Official Symbol	STMN1
NCBI Official Synonym Symbols	Lag; SMN; OP18; PP17; PP19; PR22; LAP18; C1orf215
UniProt Protein Name	Stathmin
UniProt Synonym Protein Names	Leukemia-associated phosphoprotein p18; Metablastin; Oncoprotein 18; Op18; Phosphoprotein p19; pp19; Prosolin; Protein Pr22; pp17
Protein Family	Stathmin
UniProt Gene Name	STMN1
UniProt Synonym Gene Names	C1orf215; LAP18; OP18; Op18; pp19
UniProt Entry Name	STMN1_HUMAN
NCBI Protein Information	stathmin; prosolin; metablastin; oncoprotein 18; phosphoprotein 19; phosphoprotein p19; stathmin 1/oncoprotein 18; transmembrane protein C1orf215; leukemia-associated phosphoprotein p18
NCBI Summary for STMN1	This gene belongs to the stathmin family of genes. It encodes a ubiquitous cytosolic phosphoprotein proposed to function as an intracellular relay integrating regulatory signals of the cellular environment. The encoded protein is involved in the regulation of the microtubule filament system by destabilizing microtubules. It prevents assembly and promotes disassembly of microtubules. Multiple transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Feb 2009]

UniProt Comments for STMN1	STMN1: a microtubule-associated protein involved in the regulation of the microtubule filament system by destabilizing microtubules. It prevents assembly and promotes disassembly of microtubules. Phosphorylation reduces tubulin binding 10-fold and suppresses the MT polymerization inhibition activity. Present in much greater abundance in cells from patients with acute leukemia of different subtypes than in normal peripheral blood lymphocytes, nonleukemic proliferating lymphoid cells, bone marrow cells, or cells from patients with chronic lymphoid or myeloid leukemia. Protein type: Cytoskeletal Chromosomal Location of Human Ortholog: 1p36.11 Cellular Component: microtubule; neuron projection; membrane; cytoplasm; intracellular; cytosol Molecular Function: tubulin binding; signal transducer activity Biological Process: mitotic spindle organization and biogenesis; axonogenesis; negative regulation of microtubule polymerization; response to virus; microtubule depolymerization; positive regulation of cell motility; brain development; signal transduction; neurite development; regulation of cytoskeleton organization and biogenesis
Research Articles on STMN1	**1.** study demonstrates that down-regulation of miR-101 in different subtypes of human breast cancer tissues is linked to the increase of cellular proliferation and invasiveness via targeting Stmn1
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.
Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
