STYX Antibody – Rabbit Polyclonal

PRODUCT OVERVIEW

Product Name	STYX, Polyclonal Antibody
Full Product Name	STYX Antibody, FITC Conjugated
Product Gene Name	anti-STYX antibody
Product Synonym Names	Serine/threonine/tyrosine-interacting protein (Protein Tyrosine phosphatase-like protein); STYX
Clonality	Polyclonal
Isotype	IgG
Host	Rabbit
Species Reactivity	Human
Form/Format	Liquid Preservative: 0.03% Proclin 300 Constituents: 50% Glycerol, 0.01M PBS, pH 7.4
Purity/Purification	Antigen Affinity Purified
Preparation and Storage	Upon receipt, store at -20 degree C or -80 degree C. Avoid repeated freeze.
Matching Pairs	Unconjugated Antibody: STYX (MBS7134846) FITC Conjugated Antibody: STYX (MBS7134848)
Molecular Weight	25,492 Da
OMIM	615814
3D Structure	ModBase 3D Structure for Q8WUJ0
Immunogen	Recombinant Human Serine/threonine/tyrosine-interacting protein (1-223AA)
Immunogen Species	Human
Conjugate	FITC
Product Categories/Family for anti-STYX antibody	Signal Transduction
ISO Certification	Manufactured in an ISO 9001:2015 Certified Laboratory.
Applications Tested/Suitable for anti-STYX antibody	ELISA (EIA)
Related Product Information for anti-STYX antibody	MBS7134848 is an antibody targeting STYX. Also known as STYX Antibody, FITC Conjugated. Reactive in Human. Host: Rabbit.
Other Notes	Small volumes of anti-STYX antibody vial(s) may occasionally become entrapped in the seal of the product vial during shipment and storage. If necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the container`s cap. Certain products may require to ship with dry ice and additional dry ice fee may apply.

ADDITIONAL DETAILS

NCBI/Uniprot data below describe general gene information for STYX. It may not necessarily be applicable to this product.

NCBI GI #	194733759

NCBI GeneID	6815
NCBI Accession #	NP_001124173.1
UniProt Primary Accession #	Q8WUJ0
UniProt Secondary Accession #	Q99850; B9EJG0
UniProt Related Accession #	Q8WUJ0
GenBank Nucleotide #	NM_001130701.1
NCBI Official Full Name	serine/threonine/tyrosine-interacting protein
NCBI Official Synonym Full Names	serine/threonine/tyrosine interacting protein
NCBI Official Symbol	STYX
UniProt Protein Name	Serine/threonine/tyrosine-interacting protein
UniProt Synonym Protein Names	Protein tyrosine phosphatase-like protein
Protein Family	Serine/threonine/tyrosine-interacting protein
UniProt Gene Name	STYX
UniProt Entry Name	STYX_HUMAN
NCBI Protein Information	serine/threonine/tyrosine-interacting protein; protein tyrosine phosphatase-like protein
NCBI Summary for STYX	The protein encoded by this gene is a pseudophosphatase, able to bind potential substrates but lacking an active catalytic loop. The encoded protein may be involved in spermiogenesis. Two transcript variants encoding the same protein have been found for these genes. [provided by RefSeq, Oct 2011]
UniProt Comments for STYX	STYX: Probable pseudophosphatase. Contains a Gly residue instead of a conserved Cys residue in the dsPTPase catalytic loop which renders it catalytically inactive as a phosphatase. The binding pocket is however sufficiently preserved to bind phosphorylated substrates, and maybe protect them from phosphatases. Seems to play a role in spermiogenesis. Belongs to the protein-tyrosine phosphatase family. Non-receptor class subfamily. Protein type: Protein phosphatase, tyrosine (non-receptor); Motility/polarity/chemotaxis Chromosomal Location of Human Ortholog: - Cellular Component: cytoplasm; nucleus; cytosol Molecular Function: protein binding; protein tyrosine/serine/threonine phosphatase activity Biological Process: MAPK export from nucleus; spermatogenesis; protein amino acid dephosphorylation
Research Articles on STYX	**1.** results identify STYX as an important regulator of ERK1/2 signaling critical for cell migration
Precautions	All of MyBioSource's Products are for scientific laboratory research purposes and are not for diagnostic, therapeutics, prophylactic or in vivo use. Through your purchase, you expressly represent and warrant to MyBioSource that you will properly test and use any Products purchased from MyBioSource in accordance with industry standards. MyBioSource and its authorized distributors reserve the right to refuse to process any order where we reasonably believe that the intended use will fall outside of our acceptable guidelines.
Disclaimer	While every efforts were made to ensure the accuracy of the information provided in this datasheet, MyBioSource will not be liable for any omissions or errors contained herein. MyBioSource reserves the right to make changes to this datasheet at any time without prior notice. It is the responsibility of the customer to report product performance issues to MyBioSource within 30 days of receipt of the product. Please visit our Terms & Conditions page for more information.

Product Note	Select online data sheet information is drawn from bioinformatics databases, occasionally resulting in ambiguous or non-relevant product information. It is the responsibility of the customer to review, verify, and evaluate the information to make sure it matches their requirements before purchasing the kit. Our ELISA Kit assays are dynamic research tools and sometimes they may be updated and improved. If the format of this assay is important to you then please request the current manual or contact our technical support team with a presales inquiry before placing an order. We will confirm the current details of the assay. We cannot guarantee the sample manual posted online is the most current manual, it is intended to serve as an example only. Please refer to the instructions For Use provided with the assay kit for precise details.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
